2. *Prices.*—Prices have reached such a pitch that the fluctuations are for the most part less marked from week to week ; in *South Arcot*, *Madura*, and *Tinnevelly* where prices have been somewhat lower than elsewhere there is a general advance ; this tendency to equalization is very noticeable. In *Kistna*, *Nellore*, *Kurnool*, *Cuddapah*, and the *Nilgiris* there is a general decline ; elsewhere there is no general change, and the variation from last week is slight. Turning to details for districts, in *Nellore* prices have fallen generally in the north of the district ; at Venkatagiri prices of dry grains have risen, but the previous quotations were lower than elsewhere ; in *Cuddapah* prices are for the most part stationary ; the fall in the price of cumboo at Cuddapah, Budwail, and Sidhout is probably due to the harvest ; in *Bellary* there is a marked decline at Kudlighi, Hospett, Adony, and Raidrug, but throughout the greater part of the Sub-division and at Hindupur the reverse is the case ; in six taluqs raggy and cumboo are not procurable ; in *Chingleput* there is a slight rise in Madurantacum and Conjeveram ; in *North Arcot* there is a marked decline in prices of all grains at Palmanair, elsewhere the market is steady ; in *South Arcot* and *Trichinopoly* rice has risen, and in the latter district dry grains are exceedingly scarce, cholum being nowhere procurable, and raggy and cumboo only at head-quarters ; from the *Tanjore* return received this week for the first time it seems that prices are generally high, especially so at Negapatam, and dry grains are not quoted except for Tanjore and Puttucottah ; at the latter station cholum alone is apparently procurable ; in *Madura* the advance is general ; in *Tinnevelly* all food-grains are dearer at Strivilliputtur ; in *Coimbatore* the quotations are higher for Caroor and Dharapuram and lower for Pollachy and Pulladam ; on the *Nilgiris* prices are stationary, but whilst they have fallen in a marked degree at Gudalur in South-East Wynaad there is a considerable rise in the Malabar portion of the Wynaad, and from a recent report it seems that the Deputy Collector at Manantoddy is apprehensive as to the sufficiency of the supply. In *Salem* prices are still going up, and there is no change in the state of the market at Oossoor. The highest and lowest prices for rice and the dry grain most commonly in use are given in the margin.

3. *Rainfall.*—Except in the extreme south there were good falls of rain in all the distressed districts during the week, and in some parts there have been very heavy downpours ; in most of the districts the rain appears to have been general, and

freshes in many of the rivers have been reported; more recent telegraphic reports show that the weather continues unchanged. Examining the detailed returns for districts, that for *Nellore*, where rain was urgently needed, shows heavy falls averaging 2 inches and varying from half an inch to 6½ inches; in *Cuddapah* the average is nearly 3 inches, and the rain was well distributed throughout the district; in *Bellary* there were good falls except in the west, but rain has been reported from the western taluqs since; in *Chingleput* there was very heavy rain except in the extreme north; in *North Arcot* good falls were registered in every division, the average being 3 inches; in *South Arcot* there was an average of 2 inches, the rain being well distributed; from the Tanjore return it seems that there has been abundant rain throughout the north-east of the district and light showers in the south and west; in *Trichinopoly* the showers were most copious in the north-eastern taluqs of the district adjoining South Arcot and Tanjore; towards the south-west the showers were much lighter; in *Madura* only a few cents were registered in the taluqs bordering the Hills, but intimation of a fall of 2 inches at Madura on the 11th instant has been telegraphed; in *Tinnevelly* the register is blank; there has since however been a fall of half an inch in Sattur Taluq; in *Coimbatore* the rain was principally confined to Collegal; there were light showers in four other taluqs; the average for the Nilgiris is unduly enhanced by the inclusion of the amount gauged at Gudalur; on the Hills there was about half an inch; in *Salem* there was rain throughout the district, the falls ranging from one-third of an inch to 4½ inches, being heaviest in the northern taluqs constituting the divisions of the Sub-Collector and Head Assistant Collector. The effect of this beneficial change in the weather appears in the accounts given by Collectors in their season telegrams of the state of the crops and prospects, which have assumed a more cheerful tone; in *Nellore* and *Kurnool* agricultural operations are being energetically carried on; in *Bellary*, *Kurnool*, and *South Arcot* prospects have much improved; in *Kistna*, *Cuddapah*, *North Arcot*, and *Tanjore* the crops are stated to have derived much benefit from the recent rains; but in the *Madura*, *Tinnevelly*, *Coimbatore*, and *Salem* Districts those which depend only upon the falling rain appear to be in a critical condition; in the first three the rainfall has been very light and partial, and the season has so far advanced that there seems but little prospect of a change for the better.

4. *Grants and Outlay.*—The grants up to the 8th September aggregated Rupees 272,11,493; the outlay was as follows:—

The returns for the week under review show a net decrease of 1,43,000, of which considerably more than half occurs in *Bellary*. The numbers in receipt of gratuitous relief have not however increased in the same proportion, the net result, excluding Tanjore for which figures were not given last week, being about 70,000 provided for by the State. The decrease occurs in every district except *South Arcot*, *Trichinopoly*, and *Coimbatore*. In *Nellore* the decrease is probably merely nominal, the returns not having been completely received. There is again a decrease in the number of laborers employed on the Buckingham Canal which is not explained. The usual particulars regarding districts to which the coolies belong are marginally noted. The numbers under the Public Works Department in the rest of the district are returned as 1,878, but it seems that several works in Venkatagiri and Polur have been handed over to the professional department, but no returns have been received.

7. The details for the *Cuddapah* District are shown in the margin. There is a decrease throughout the district, but for three taluqs the past week's figures are repeated owing to non-receipt of returns; numbers have fallen off principally in Proddatur, Royachoti, and Voilpaud; in the first case it is ascribed to resumption of agricultural operations; in the other two to transfer of feeble coolies to village relief. In *Bellary* there is a very large diminution of numbers, the falling off in the Alur, Tadpatri Taluqs alone amounting to 50,000 and being considerable in the Adoni, Raidrug, and Dharmaveram Taluqs also. In the two first-mentioned

to be due to relegation to village relief. In *Chingleput* numbers on the Conjeveram-Chingleput line fell from 20,996 to 18,836. The returns for *North Arcot* appear to be defective, the numbers employed under the professional department being returned as 1,168 against 9,753 in the previous week; figures for Chendragherry are also wanting; the returns for *Madura* also are defective. In *Coimbatore*, the non-receipt of funds is alleged as the cause of stoppage of work in the Coimbatore Taluq; this should be explained; due notice of the change in the mode of provision of funds was given, and at the head-quarters of the district there should have been no difficulty in guarding against such an occurrence. In *Salem*, there is a large falling off in Uttengiri, Dharampuri, and Kistnagherry, owing to delay in providing for the employment of coolies transferred to the Public Works Department; the decrease is counterbalanced to a great extent by augmentation of numbers elsewhere. The returns for Tanjore show no coolies at work, but the season telegram contains mention of 2,739 children, as distinguished from inmates of camps and recipients of village relief; this should be explained.

taluqs there appears to have been an absolute stoppage of works, which the Board do not understand. From a letter just received from the Sub-Collector direct, it appears that the works were closed with the view to the transfer of the coolies *en masse* to Gundakal for employment on the loop-line and on the Gundakal-Urvakonda road, but the explanation is not clear and further information is awaited; in Adoni and Dharmaveram the decrease is due to transfer of inefficient coolies to village relief, and in Raidrug to defective returns. The numbers employed on the Bellary-Hubli railway were 8,762, of whom 5,127 belonged to the Bellary Taluq and 3,635 to Hospett. For *Kurnool* details are not yet avaliable, but the decrease appears

8. The total number of famine coolies working under the supervision of the Public Works Department was 235,437 against 246,183 in the previous week. The returns from *Nellore* and *North Arcot* are incomplete; there has been a considerable increase in *Cuddapah* and *Salem* and a falling off in *Bellary*.

9. The enhanced scale of wages appears to have been in force everywhere except in parts of *North Arcot*.

* Particulars not given

The increase of numbers in receipt of gratuitous relief is swelled by the inclusion of figures for *Tanjore*, from which district returns have been received for the first time; excluding *Tanjore* numbers have not been augmented during the week under review to the same extent as in previous weeks; the bulk of the increase occurs in *Coimbatore* and *Salem*; the districts of *Bellary*, *Cuddapah*, and *Madura* also contributed largely. The large decrease in *North Arcot* is apparently nominal, the returns not being complete; the same remark applies to *Nellore*; no explanation is afforded as regards *South Arcot*, and the *Kistna* figures are clearly incorrect, the Collector having reported 8,046 as the number in receipt of gratuitous relief in his season telegram to Government. There is a very considerable falling off in the number of children in receipt of subsistence allowance on the works, for which *Bellary* is mainly responsible, the decrease in that district alone being 20,000, due chiefly to the stoppage of works already commented upon; the rest of the decrease occurs in *Kurnool*, *Cuddapah*, *North Arcot* and *Madura*. There were no deaths amongst children of coolies on the works except in *Kurnool*, where the number was 18.

11. The progress of measures taken for the extension of gratuitous relief is shown by the marginal figures. The number of relief centres remains nearly the same, an increase of 20 in *Salem* being counterbalanced by a decrease to the same extent in *Bellary*. The increase in the number of inspection circles occurs mainly in *Kurnool*, *Chingleput* and *Salem*, but there has been a slight falling off in the number of villages in which relief was afforded; it occurs in *North Arcot* and *Salem*. Examining the returns district by district those for *Kistna* and *Nellore* appear to be defective as already remarked; the increase in *Cuddapah* occurs in the Sub-division principally and is due to relegation from works and increased distress; in *Bellary*, the same reasons are assigned, together with the

greater accuracy of the returns; in *Chingleput* relegation from Madras camps tended to swell the numbers; for *North Arcot* returns are incomplete and the cause of the decrease in *South Arcot* is not explained; for *Tanjore*, returns have been received for the first time; but the statement shows only the total number relieved, of which inmates of camps comprise nearly four-fifths; in *Madura* there has been a considerable extension of village relief especially in the Sub-division; from the *Tinnevelly* returns it appears that distress has driven increasing numbers to seek State aid in Sattur and Ottapidaram; in *Coimbatore*, Palladum, Dharapuram, and Udumalapettah furnish the bulk of the new admissions; in *Salem* all taluqs except Salem and Dharampuri contribute large numbers, the pressure of distress becoming more acute throughout the district.

16. The total monthly cost of establishment specially entertained for famine relief was Rupees 1,42,967.

17. The average strength of resident paupers in Madras camps was 7,331, and of non-residents 16,096. The fresh admissions numbered 230, and those resident on the 8th September belonged to the districts marginally noted. The large decrease in the number of inmates belonging to the two first named districts indicates the progress of relegation. Those sent to work outside the camps were employed as follows:—

The strength in hospital on the 8th September was 968, deaths numbered 182, (of which 180 took place in hospital), or in the ratio of 1,023 per mille per annum. The outlay during the week was Rupees 33,270 and up to the end of the week Rupees 9,33,597. The President of the Municipality had 3,448 paupers in the Sattangad camp and 1,707 on works on 8th September. His outlay was Rupees 6,492 in the week and Rupees 89,458 to the end of the week.

18. The imports of food grains into the Presidency during the week amounted to 17,914 tons.

2. *Prices.* — Prices have reached such a pitch that the fluctuations are for the most part less marked from week to week; in *South Arcot*, *Madura*, and *Tinnevelly*, where prices have been somewhat lower than elsewhere, there is a general advance; this tendency to equalization is very noticeable. In *Kistna*, *Nellore*, *Kurnool*, *Cuddapah*, and the *Nilgiris* there is a general decline, elsewhere there is no general change and the variation from last week is slight. Turning to details for districts, in *Nellore* prices have fallen generally in the north of the district; at Venkatagiri prices of dry grains have risen, but the previous quotations were lower than elsewhere. In *Cuddapah* prices are for the most part stationary: the fall in the price of cumboo at Cuddapah, Budwail, and Sidhout is probably due to the harvest; in *Bellary* there is a marked decline at Kudligi, Hospett, Adony, and Raidrug, but throughout the greater part of the Sub-division and at Hindupur the reverse is the case; in six taluqs raggy and cumboo are not procurable; in *Chingleput* there is a slight rise in Madurantacam and in Conjeveram; in *North Arcot* there is a marked decline in prices of all grains at Palmanair, elsewhere the market is steady; in *South Arcot* and *Trichinopoly* rice has risen and in the latter district dry grains are exceedingly scarce, cholum being nowhere procurable and raggy and cumboo only at head-quarters; from the *Tanjore* return received this week for the first time it seems that prices are generally high, especially so at Negapatam, and dry grains are not quoted except for Tanjore and Pattucottah: at the latter station cholum alone is apparently procurable; in *Madura* the advance is general; in *Tinnevelly* all food-grains are dearer at Strivilliputtur; in *Coimbatore* the quotations are higher for Caroor and Dharapuram and lower for Pollachy and Palladam; on the *Nilgiris* prices are stationary, but whilst they have fallen in a marked degree at Gudalur, in South-East Wynaad, there is a considerable rise in the Malabar portion of the Wynaad, and from a recent report it seems that the Deputy Collector at Manantoddy is apprehensive as to the sufficiency of the supply. In *Salem* prices are still going up, and there is no change in the state of the market at Oossoor. The highest and lowest prices for rice and the dry grain most commonly in use are given in the margin.

2. *Prices.* — Prices have reached such a pitch that the fluctuations are for the most part less marked from week to week; in *South Arcot*, *Madura*, and *Tinnevelly*, where prices have been somewhat lower than elsewhere, there is a general advance; this tendency to equalization is very noticeable. In *Kistna*, *Nellore*, *Kurnool*, *Cuddapah*, and the *Nilgiris* there is a general decline, elsewhere there is no general change and the variation from last week is slight. Turning to details for districts, in *Nellore* prices have fallen generally in the north of the district; at Venkatagiri prices of dry grains have risen, but the previous quotations were lower than elsewhere. In *Cuddapah* prices are for the most part stationary: the fall in the price of cumboo at Cuddapah, Budwail, and Sidhout is probably due to the harvest; in *Bellary* there is a marked decline at Kudligi, Hospett, Adony, and Raidrug, but throughout the greater part of the Sub-division and at Hindupur the reverse is the case; in six taluqs raggy and cumboo are not procurable; in *Chingleput* there is a slight rise in Madurantacam and in Conjeveram; in *North Arcot* there is a marked decline in prices of all grains at Palmanair, elsewhere the market is steady; in *South Arcot* and *Trichinopoly* rice has risen and in the latter district dry grains are exceedingly scarce, cholum being nowhere procurable and raggy and cumboo only at head-quarters; from the *Tanjore* return received this week for the first time it seems that prices are generally high, especially so at Negapatam, and dry grains are not quoted except for Tanjore and Pattucottah: at the latter station cholum alone is apparently procurable; in *Madura* the advance is general; in *Tinnevelly* all food-grains are dearer at Strivilliputtur; in *Coimbatore* the quotations are higher for Caroor and Dharapuram and lower for Pollachy and Palladam; on the *Nilgiris* prices are stationary, but whilst they have fallen in a marked degree at Gudalur, in South-East Wynaad, there is a considerable rise in the Malabar portion of the Wynaad, and from a recent report it seems that the Deputy Collector at Manantoddy is apprehensive as to the sufficiency of the supply. In *Salem* prices are still going up, and there is no change in the state of the market at Oossoor. The highest and lowest prices for rice and the dry grain most commonly in use are given in the margin.

3. *Rain-fall.*—Except in the extreme south there were good falls of rain in all the distressed districts during the week and in some parts there have been very heavy downpours; in most of the districts the rain appears to have been general and freshes in many of the rivers have been reported; more recent telegraphic reports show that the weather continues unchanged; examining the detailed returns from districts, that from *Nellore*, where rain was urgently needed, show heavy falls averaging two inches and varying from half an inch to 6½ inches; in *Cuddapah* the average is nearly three inches and the rain was well distributed throughout the district; in *Bellary* there

were good falls except in the west, but rain has been reported from the western taluqs since, in *Chingelput* there was very heavy rain except in the extreme north; in *North Arcot* good falls were registered in every division, the average being three inches; in *South Arcot* there was an average of two inches, the rain being well distributed; from the *Tanjore* returns it seems that there has been abundant rain throughout the north-east of the district, and light showers in the south and west; in *Trichinopoly* the showers were most copious in the north-eastern taluqs of the district adjoining South Arcot and Tanjore, towards the south-west the showers were much lighter; in *Madura* only a few cents were registered in the taluqs bordering the hills, but intimation of a fall of 2 inches at Madura on the 11th instant has been telegraphed; in *Tinnevelly* the register is blank: there has since, however, been a fall of half an inch in Sattur Taluq; in *Coimbatore* the rain was principally confined to Collegal; there were light showers in four other taluqs; the average for the Nilgiris is unduly enhanced by the inclusion of the amount gauged at Gudalur; on the Hills there was about half an inch; in *Salem* there was rain throughout the district, the falls ranging from one-third of an inch to 4½ inches, being heaviest in the northern taluqs constituting the divisions of the Sub-Collector and Head Assistant Collector. The effect of this beneficial change in the weather appears in the accounts given by Collectors in their season telegrams of the state of the crops and prospects, which haveassumed a more cheerful tone; in *Nellore* and *Kurnool* agricultural operations are being energetically carried on; in *Bellary*, *Kurnool*, and *South Arcot* prospects have much improved; in *Kistna*, *Cuddapah*, *North Arcot*, and *Tanjore* the crops are stated to have derived much benefit from the recent rains; but in the *Madura*, *Tinnevelly*, *Coimbatore*, and *Salem* Districts those which depend only upon the falling rain appear to be in a critical condition; in the first three the rain-fall has been very light and partial, and the season has so far advanced that there seems but little prospect of a change for the better.

4. *Grants and Outlay.*—The grants up to the 8th September aggregated Rupees 2,72,14,493; the outlay was as follows:—

The returns for the week under review show a net decrease of 143,000, of which considerably more than half occurs in *Bellary*. The numbers in receipt of gratuitous relief have not, however, increased in the same proportion, the net result excluding Tanjore, for which figures were not given last week, being about 70,000, provided for by the State. The decrease occurs in every district except *South Arcot*, *Trichinopoly*, and *Coimbatore*. In *Nellore* the decrease is probably merely nominal, the returns not having been completely received. Thereis again a decrease in the number of laborers employed on the Buckingham Canal, which is not explained. The usual particulars regarding districts to which the coolies belong are marginally noted. The numbers under the Department of Public Works in the rest of the district are returned as 1878; but it seems that several works in Venkatagiri and Polur have been handed over to the professional department, but no returns have been received.

7. The details for the *Cuddapah* District are shown in the margin. There is a decrease throughout the district, but for three taluqs the past week's figures are repeated owing to non-receipt of returns; numbers have fallen off principally in Proddatur, Royachoti, and Voilpaud;

in the first case it is ascribed to resumption of agricultural operations, in the other two to transfer of feeble coolies to village relief. In *Bellary* there is a very large diminution of numbers, the falling off in the Alur and Tadpatri Taluqs alone amounting to 50,000 and being considerable in the Adoni, Raidrug, and Dhurmaveram Taluqs also. In the two first-mentioned taluqs there appears to have been an absolute stoppage of works, which the Board do not understand. From a letter just received from the Sub-Collector direct it appears that the works were closed with the view to the transfer of the coolies *en masse* to Goondacul for employment on the loop-line and on the Goondacul-Uravaconda Road, but the explanation is not clear and further information is awaited. In Adoni and Dhurmaveram the decrease is due to transfer of inefficient coolies to village relief and in Raidrug to defective returns. The numbers employed in the Bellary-Hubli Railway were 8,762, of whom 5,127 belonged to the Bellary Taluq and 3,635 to Hospett. For *Kurnool* details are not yet available, but the decrease appears to be due to relegation to village relief. In *Chingleput* numbers on the Conjeveram-Chingleput line fell from 20,996 to 18,836. The returns for *North Arcot* appear to be defective, the numbers employed under the professional department being returned as 1,168 against 9,753 in the previous week; figures for Chendragherry are also wanting; the returns for *Madura* also are defective. In *Coimbatore* the non-receipt of funds is alleged as the cause of stoppage of work in the Coimbatore Taluq; this should be explained; due notice of the change in the mode of provision of funds was given, and at the head-quarters of the district there should have been no difficulty in guarding against such an occurrence. In *Salem* there is a large falling off in Uttengiri, Dharampuri, and Kistnagherry owing to delay in providing for the employment of coolies transferred to the Department of Public Works; the decrease is counterbalanced to a great extent by augmentation of numbers elsewhere. The returns for Tanjore show no coolies at work, but the season telegram contains mention of 2,739 children as distinguished from inmates of camps and recipients of village relief; this should be explained.

8. The total number of famine coolies working under the supervision of the Public Works Department was 235,437 against 246,183 in the previous week. The returns from *Nellore* and *North Arcot* are incomplete; there has been a considerable increase in *Cuddapah* and *Salem* and a falling off in Bellary.

9. The enhanced scale of wages appears to have been in force everywhere except in parts of *North Arcot*.

* Particulars not given.

The increase of numbers in receipt of gratuitous relief is swelled by the inclusion of figures for *Tanjore*, from which district returns have been received for the first time; excluding Tanjore, numbers have not been augmented during the week under review to the same extent as in previous weeks; the bulk of the increase occurs in *Coimbatore* and *Salem*; the districts of *Bellary*, *Cuddapah*, and *Madura* also contributed largely. The large decrease in *North Arcot* is apparently nominal, the returns not being complete; the same remark applies to *Nellore*; no explanation is afforded as regards *South Arcot*, and the *Kistna* figures are clearly incorrect, the Collector having reported 8,046 as the number in receipt of gratuitous relief in his season telegram to Government. There is a very considerable falling off in the number of children in receipt of subsistence allowance on the works, for which *Bellary* is mainly responsible, the decrease in that district alone being 20,000, due chiefly to the stoppage of works already commented upon; the rest of the decrease occurs in *Kurnool*, *Cuddapah*, *North Arcot*, and *Madura*. There were no deaths amongst children of coolies on the works except in Kurnool, where the number was 18.

The progress of measures taken for the extension of gratuitous relief is shown by the marginal figures. The number of relief centres remains nearly the same, an increase of 20 in *Salem* being counterbalanced by a decrease to the same extent in Bellary. The increase in the number of inspection circles occurs mainly in *Kurnool*, *Chingleput*, and *Salem*; but there has been a slight falling off in the number of villages in which relief was afforded; it occurs in *North Arcot* and *Salem*. Examining the returns district by district, those for *Kistna* and *Nellore* appear to be defective, as already remarked; the increase in *Cuddapah* occurs in the sub-division principally and is due to relegation from works and increased distress; in *Bellary* the same reasons are assigned together

—	1st Sept.	8th Sept.	—
Number of relief centres ..	617	613	— 4

with the greater accuracy of the returns; in *Chingleput*, relegation from Madras camps tended to swell the numbers; for *North Arcot* returns are incomplete, and the cause of the decrease in *South Arcot* is not explained; for *Tanjore* returns have been received for the first time, but the statement shows only the total number relieved, of which inmates of camps comprise nearly four-fifths; in *Madura* there has been a considerable extension of village relief, especially in the sub-division; from the *Tinnevelly* returns it appears that distress has driven increasing numbers to seek State aid in Sattur and Ottapidaram; in *Coimbatore*, Palladam, Dharapuram, and Udumalapettah furnish the bulk of the new admissions; in *Salem* all taluqs, except Salem and Dharampuri, contribute large numbers, the pressure of distress becoming more acute throughout the district.

17. The average strength of resident paupers in Madras camps was 7,331 and of non-residents 16,096. The fresh admissions numbered 230, and those resident on the 8th September belonged to the districts marginally noted. The large decrease in the number of inmates belonging to the two first-named districts indicates the progress of relegation. Those sent to work outside the camps were employed as follows:—

Junction Canal	1,218	
Cooum Shoals	4,419	
Powder Mills	5,721	Under supervision of D. P. W.
Merchants' Magazine	1,146	
Repairs of Vasarapady Tank ..	1,095	
Total ..	13,599	

The strength in hospital on the 8th September was 968, deaths numbered 182, (of which 180 took place in hospital), or in the ratio of 1,023 per mille per annum. The outlay during the week was Rupees 33,270, and up to the end of the week Rupees 9,33,597. The President of the Municipality had 3,448 paupers in the Sattangad camp and 1,707 on works on 8th September. His outlay was Rupees 6,492 in the week, and Rupees 89,458 to the end of the week.

18. The imports of food-grains into the Presidency during the week amounted to 17,914 tons.
