Sir,

Referring to the Board's Proceedings dated 18th December 1876 N^o 3037, I have the honor to forward herewith statements of cultivation and collections for December, January and February last, called for in their Official Memorandum of the 26th Ultimo N^o 545.

The Returns for March are under preparation and will be submitted shortly.

Chingleput District Collector's Office,
Saidapet, 24th April 1877

The Statements of cultivation and Collections for 3 months from December 1876 to February 1877 received with the foregoing letter will be submitted to Government with reference to their order dated 29th November 1876 N^o 1855-

2. In the cultivation up to February there is a small increase in Madu-rantakam and Conjeveram, and a decrease in the other four taluqs ranging from 12% in Chingleput to 35% in Ponneri; on the whole there is a falling off of 12% as compared with the average of the previous three years.

3. The Collections have fallen off in every taluq and the decrease on

on the whole is 55 per cent. Taking the month of February alone, the Collections amount to Rupees 4233 against an average of Rs 172,981 for the past 3 years, being just over two per cent. The Collector's attention is called to their extremely backward state of Collections in his district. Well-to-do ryots should be made to pay their dues, and the proportion realizable can hardly be so low as the state of Collections indicate.

4. The averages up to the month entered in the Cultivation Statement for February do not correspond with the total obtained by adding the months figures to those given in the

the column "upto the month" in
the previous return. The discrepan-
cies should be explained, and care
should be taken to see that similar
errors do not recur.
