2. *Prices*.—The upward tendency still continues, but it is not very marked, and the district averages are generally not much higher than in the past week; the advance is most noticeable as regards the Nilgiris. Turning to details for districts prices in *Nellore* may be said to be stationary, but from the absence of quotations, dry grains are apparently not procurable at three stations; in *Cuddapah* also there is no variation to notice, raggy is again the only grain quoted for Kamalapore; in *Bellary* there is a general advance, Kudlighi, Rairdrug, and Hospett being chiefly affected; the high rates noticed last week as prevailing at Harpanhalli are exceeded, and the quotation for cumboo, 4½ seers, is the highest yet reached. The price lists for *North Arcot*, *Chingleput*, and *South Arcot* do not present any changes calling for comment: the absence of quotations for dry grains at several taluq cusbahs noticed in previous reviews is explained to be due to exhaustion of stocks, owing to large exportation during the early part of the year, and failure of the crops recently cut; in *Madura* and *Tinnevelly* the market appears steady; in *Coimbatore* cholum has become generally dearer, and rice has risen considerably. Palladum, in South-East *Wynaad* prices are very high but no quotations are given for the past week to admit of comparison. In *Salem* rice is very dear at Oossoor and dry grains are not quoted. The highest and lowest price for rice and the dry grains most commonly in use are given in the margin.

3. *Rainfall*.—Some rain was registered in every district, except Tinnevelly, during the week, but the falls were generally light and partial, especially in the south; in *Nellore* there was a slight sprinkling in two taluqs; in *Cuddapah* the rain was pretty generally distributed and there were good showers at Proddatur, Sidhout, Pullampett, and Chitvaily; in *Bellary* rain was gauged in all taluqs except four, and the falls were heavy in the taluqs comprising the Sub-division; there was also good rain at Bellary; in *Chingleput* there was a heavy fall at Trivellore and a few cents were registered in three other taluqs; in *South Arcot*, *Trichinopoly*, *Madura*, and *Salem* there were only light showers and in *Coimbatore*, Pollachy alone shows any appreciable fall. The account of the crops given in the last telegraphic season reports is much the same as in the previous

week; almost everywhere more rain is wanted to bring to maturity the unirrigated dry crops. Subsequent reports by telegram have however conveyed intimation of rain in parts of *Kistna*, *Kurnool*, *Bellary*, *Cuddapah*, *Chingleput*, *North Arcot*, *South Arcot*, and *Salem*, and of freshes in the Toombadra, Hindry, Papagni, Kundair, Penniar, Cheyair, and Chitravati rivers; rain has also been reported from *Nellore*, *Trichinopoly*, *Tanjore*, and *Combatore*. It is hoped that a more favorable account of the standing crops may result.

4. *Grants and Outlay.*—The grants up to the 1st September aggregate Rupees 271,99,493 and the outlay was as follows:—

The returns exhibit a net decrease of 22,000 which occurs chiefly in *Nellore*, *Kurnool*, and *Bellary*; as regards the first-named district comparison is fallacious owing to the incompleteness of the returns; particulars for *Kurnool* are not yet available, and in *Bellary* the decrease is due chiefly to relegation of the coolies in Adoni. There is a considerable decrease in numbers employed on the Buckingham Canal, which is not explained, but is probably due to their transfer to other works. The districts to which the coolies belong are marginally noted. Numbers employed under the Public Works Department elsewhere were 2,174.

The details for the Cuddapah District are given in the margin; the net slight increase due to transfer of [illegible]te-bodied from gratuitous relief to works. The figures for Bellary show a large falling off in Adoni and Gooty; in the former taluq it is explained to be due to the relegation of coolies to their own homes and in the latter to weeding of gangs and stoppage of certain works. Numbers on the Bellary-Hubli Railway were 9,489, of whom 6,103 belonged to Bellary Taluq and 3,386 to Hospett. In *Chingleput* the increase is due to the opening of fresh works, amongst which may be noted the deepening of the southern section of the East Coast Canal; numbers on the Conjeveram-Chingleput line were 20,996 against 23,156 in the previous week, the decrease being due to transfer of coolies to other works owing to the approaching completion of the line; elsewhere 3,044 were employed under the Public Works Department. The increase in *North Arcot* is due to the inclusion for the first time of coolies employed under the Public Works Department 3,753, in number. The variations in other districts do not call for comment.

8. The total number of famine coolies working under the supervision of the Public Works Department was 246,183 against 229,602 in the previous week; particulars have been more fully furnished from North Arcot this week, and there has been a large increase in Salem.

9. The enhanced scale of wages appears to be in force everywhere except in parts of Cuddapha and North Arcot.

* Particulars not given.

The very formidable increase in numbers in receipt of gratuitous relief, which has been noticed in successive reports during the last two months, still continues, the addition to the total on the hands of Government being no less than 110,000 in the week under review. The decrease in *Nellore* is to a great extent nominal; returns for Ongole, Atmakur, and Venkatagiri in which, according to the previous week's returns, nearly 12,000 were in receipt of relief being wanting. The augmentation of numbers may be said therefore to be general, and is especially marked in *Salem*, *North* and *South Arcot*, which together contributed two-thirds of the increase; the abstract shows that three-fourths of the additional recipients of relief have been provided for in their villages. There is again a large falling off in the number of children in receipt of subsistence allowance on the works in *Bellary*, the decrease being 18,000; there is also a decrease of numbers in *Karnool* which is counterbalanced by an increase in *North Arcot*.

11. The marginal figures show the progress of measures taken for the extension of gratuitous relief, the previous week's figures being adopted for the *Kistna* District and partially for *Karnool*. The decrease in the number of centres occurs in Coimbatore and the increase in the number of villages in *Nellore*, *Chingleput*, *North Arcot*, *South Arcot*, *Madura*, and *Coimbatore*. Examining the returns district by district, those from *Nellore* are, as already remarked, defective; the Collector states that numbers in camps have been reduced by better management and that the only taluq in which numbers have increased largely is Kanigiri, where distress is very great; the variation in *Cuddapah* does not call for comment. In *Bellary* the increase occurs chiefly in Adoni and Anantapur, in the case of the former being due to relegation from the works

and in that of the latter to increased pressure; the large falling off in the number of children on the works appears to be due in a measure to defective returns; in *Chingleput* Madrantacum and Trivellore contribute in equal proportions, the cause being increased distress and in the latter case partly relegation from Madras camps. In *North Arcot* and *South Arcot* the large accession of numbers is general and is due to a wider extension of the village relief system; in *Madura* the Sub-division principally contributes and in *Tinnevelly* distress has increased in the four northern taluqs; in *Coimbatore* numbers have been considerably reduced by relegation in Erode and Caroor, but the decrease is more than counterbalanced by fresh applicants for relief elsewhere, especially in Udamalpetta and Palladam; in *Salem* the taluqs of Salem, Namkal, Trichengode, Tripatore, and Uttenguli are suffering more severely, hence the increase; extensive transfers from village relief to camps still continue. No returns have reached the Board from Tanjore, but the season telegram shows 31,895 as the number relieved gratuitously.

Prices.—The upward tendency still continues but it is not very marked and the district averages are generally not much higher than in the past week; the advance is most noticeable as regards the Nilgiris. Turning to details for districts, prices in *Nellore* may be said to be stationary, but from the absence of quotations dry grains are apparently not procurable at three stations. In *Cuddapah* also, there is no variation to notice; ragi is again the only grain quoted for *Kamalapoor*. In *Bellary* there is a general advance, Kudligbi, Raidrug, and Hospett being chiefly affected; the high rates noticed last week as prevailing at Harpanhalli are exceeded, and the quotation for cumboo, 7 seers, is the highest yet reached. The price lists for *North Arcot*, *Chinglepat*, and *South Arcot* do not present any changes calling for comment; the absence of quotations for dry grains at several Taluq Cutcheries noticed in previous reviews is explained to be due to exhaustion of stocks owing to large exportation during the early part of the year and failure of the crops recently cut; in *Madura* and *Tinnevelly* the market appears steady; in *Coimbatore* cholum has become generally dearer and rice has risen considerably at Palladum; in *South-East Wynaad* prices are very high, but no quotations are given for the past week to admit of comparison. In *Nellore* rice is very dear at Ossoor and dry grains are not quoted. The highest and lowest price for rice and the dry grains most commonly in use are given in the margin.

Rain-fall.—Some rain was registered in every district, except Tinnevelly, during the week, but the falls were generally light and partial, especially in the south; in *Nellore* there was a slight sprinkling in two taluqs; in *Cuddapah* the rain was pretty generally distributed and there were good showers at Proddatur, Sidhout, Pullampett, and Cuttwah; in *Bellary* rain was gauged in all taluqs except four, and the falls were heavy in the taluqs comprising the sub-division; there was also good rain at Bellary; in *Chinglepat* there was a heavy fall at Trivellore and a few cents were registered in three other taluqs. In *South Arcot*, *Trichinopoly*, *Madura*, and *Salem* there were only light showers; and in *Coimbatore* Pollachy alone shows any appreciable fall. The account of the crops given in the last telegraphic season reports is much the same as in the previous week; almost everywhere more rain is wanted to bring to maturity the unirrigated dry crops. Subsequent reports by telegram have, however, conveyed intimation of general rain in parts of Kistna, Kurnool, Bellary, Cuddapah, Chinglepat, North Arcot, South Arcot, and Salem, and of freshes in the Toombudra, Hindry, Papaggi, Kundair, Pennair, Cheyair, and Chitra-

vati rivers; rain has also been reported from Nellore, Trichinopoly, Tanjore, and Coimbatore. It is hoped that a more favorable account of the standing crops may result.

The returns exhibit a net decrease of twenty-two thousand, which occurs chiefly in *Nellore*, *Kurnool*, and *Bellary*; as regards the first-named district comparison is fallacious owing to the incompleteness of the returns; particulars for *Kurnool* are not yet available, and in *Bellary* the decrease is due chiefly to relegation of the coolies in Adoni. There is a considerable decrease in numbers employed on the Buckingham Canal, which is not explained, but is probably due to their transfer to other works. The districts to which the coolies belong are marginally noted.

Numbers employed under the Department of Public Works elsewhere were 2,174.

7. The details for the Cuddapah District are given in the margin; the net result is a slight increase due to transfer of the able-bodied from gratuitous relief to works. The figures for Bellary show a large falling off in Adoni and Gooty; in the former taluq it is explained to be due to the relegation of coolies to their own homes and in the latter to weeding of gangs and stoppage of certain works. Numbers on the Bellary-Hubli Railway were 9,489, of whom 6,103 belonged to Bellary Taluq and 3,386 to Hospett.

amongst which may be noted the deepening Southern Section of the East Coast Canal. Numbers on the Conjeveram-Chingleput line, 20,996 against 23,150 in the previous week, decrease being due to transfer of coolies to other works owing to the approaching completion of the line; elsewhere 3,041 were employed under the Department of Public Works. The increase in *North Arcot* is due to the inclusion for the first time of coolies employed under the Department of Public Works 9,735 in number. The variations in other districts do not call for comment.

8. The total number of famine coolies working under the supervision of the Public Works Department was 246,185 against 229,602 in the

previous week; particulars have been more fully furnished from North Arcot this week and there has been a large increase in Salem.

9. The enhanced scale of wages appears to be in force everywhere except in parts of Cuddapah and North Arcot.

* Particulars not given.

The very formidable increase in numbers in receipt of gratuitous relief, which has been noticed in successive reports during the last two months, still continues, the addition to the total on the hands of Government being no less than one hundred and ten thousand in the week under review. The decrease in *Nellore* is to a great extent nominal returns for Ongole, Atmakur, and Venkatagiri, in which, according to the previous week's returns, nearly 12,000 were in receipt of relief being wanting. The augmentation of numbers may be said, therefore, to be general, and is especially marked in Salem, North and South Arcot, which together contributed two-thirds of the increase; the abstract shows that three-fourths of the additional recipients of relief have been provided for in their villages. There is again a large falling off in the number of children in receipt of subsistence allowance on the works in *Bellary*, the decrease being 18,000; there is also a decrease of numbers in *Kurnool* which is counterbalanced by an increase in *North Arcot*.

11. The marginal figures show the progress of measures taken for the extension of gratuitous relief, the previous week's figures being adopted for the Kistna District and partially for Kurnool. The decrease in the number of centres occurs in Coimbatore and the increase in the number of villages in *Nellore*, *Chingleput*, *North Arcot*, *South Arcot*, *Madura*, and *Coimbatore*. Examining the returns district by district, those from Nellore are, as already remarked, defective; the Collector states that numbers in camps have been reduced by better management and that the only taluq in which numbers have increased largely is Kanigiri, where distress is very great; the variation in *Cuddapah* does not call for comment. In *Bellary* the increase occurs chiefly in Adoni and Anantapur, in the case of the former being due to relegation from the works and in that of the latter to increased pressure; the large falling off in the number of children on the works appears to be due in a measure to defective returns; in *Chingleput*, Madurantakum and Trivellore contribute in equal proportions, the cause being increased distress and in the latter case partly relegation from Madras camps. In *North Arcot* and *South Arcot* the large accession of numbers is general and is due to a wider extension of the village-relief system; in *Madura* the sub-division principally contributes, and in *Tinnevelly* distress has increased in the four northern taluqs; in *Coimbatore* numbers have been considerably reduced by relegation in Erode and Caroor, but the decrease is more than counterbalanced by fresh applicants for relief elsewhere, especially in Udumulpetta and Palladum. In *Salem*, the taluqs of Salem, Namkal, Trichengode, Tripatur, and Uttengiri are suffering more severely, hence the increase; extensive transfers from village relief to camps still continue: no returns have reached the Board from Tanjore, but the season telegram shows 31,895 as the number relieved gratuitously.
