*Irrigation Relief Works.*

1. Works Nos. 6, 7, 8, 10, 13, 14, 15, 23, 39, and 41 in the accompanying statement have been already sanctioned and are in progress, or about to be commenced.
2. Works Nos. 1, 2, 9, 11, 12, 22, 23, 26, 33, and 42 are provisionally sanctioned, and the Chief Engineer for Irrigation should direct their commencement with the least practicable delay.
3. Works Nos. 20, 27, 30, 34, 35, and 40 are not to be commenced pending further orders.
4. As soon as a work has been begun, the fact should be immediately notified to Government by the Chief Engineer, who should at the same time submit a statement showing the date upon which the orders to begin the work reached the Executive Officer, and explaining any delay that may occur in commencing.
5. Works Nos. 3, 4, 5, 16, 17, 18, 19, 21, 24, 25, 31, 32, 36, 37, 38, 39, 40, 43, 44, 45, 47, and 48 require further investigation, and the Chief Engineer for Irrigation should at once issue the orders necessary to enable him to submit full information to Government at the earliest possible date. This information should be submitted separately for each work as soon as ready.
6. Collectors and District Engineers should arrange, in conference, the time of commencement of each work; and when the work has been begun, the District Engineer or Officer in special charge of each work should keep the Collector at intervals, not exceeding one week, informed of the number of persons that can still be accommodated on it.
7. The works should be carried out in accordance with the provisions of G.O., dated 24th September 1877, No. 2,847.
8. The Chief Engineer for Irrigation should issue all necessary subsidiary instructions and should utilize to the fullest extent the establishments now available in commencing the works sanctioned; and, if he requires further assistance either for superintendence of works or for conducting investigations, he should at once report in detail what aid will be needed.
9. Detailed plans and estimates should be submitted as soon as possible for those works on the sanctioned programme which are now without them.

**Irrigation Relief Works.**

Works Nos. 6, 7, 8, 10, 13, 14, 15, 28, 29, 41 in the accompanying statement have been already sanctioned and are in progress or about to be commenced.

Works Nos. 1, 2, 9, 11, 12, 22, 23, 26, 33, 42 and are provisionally sanctioned, and the Chief Engineer for Irrigation should commence them with the least practicable delay.

Works Nos. 20, 27, 30, 34, 35, 44, and 46 are not to be commenced pending further orders.

As soon as a work has been commenced, the fact should be immediately notified to Government by the Chief Engineer, who should at the same time submit a statement showing the date upon which the orders to begin the work reached the Executive Officer, and explaining any delay that may occur in commencing.

Works Nos. 3, 4, 5, 16, 17, 18, 19, 21, 24, 25, 31, 32, 36, 37, 38, 39, 40, 43, 44, 45, 47, and 48 require further investigation, and the Chief Engineer for Irrigation should at once issue the orders necessary to enable him to submit full information to Government at the earliest possible date.

Collectors and District Engineers should arrange, in conference, the time of commencement of each work; and when the work has been commenced, the District Engineer or Officer in special charge of each work should keep the Collector at intervals, not exceeding one week, informed of the number of persons that can still be accommodated on it.

The works when started should be carried out in accordance with the provisions of G.O., dated 24th September 1877, No. 2,847.

The Chief Engineer for Irrigation should issue all necessary subsidiary instruction and should utilize to the fullest extent the establishments now available in commencing the works sanctioned; and, if he requires further assistance, he should at once report in detail what further help will be needed. Detailed plans and estimates should be submitted as soon as possible for those works on the sanctioned programme which are now without them.

*Letter for Superintendent  
for Chief Engineer  
in investigation*

*This information should be submitted separately for each work as soon as ready.*

1  
Irrigation Relief Works.

288  
Vut  
Works nos 1, 2, 5, ~~7, 8, 9~~, 10, 11

12, 13, ~~14~~, 15, 22, 23, 26, 28, 29, 33

2 & 4, in the accompanying statement are provisionally sanctioned, and the Chief Engineer for Irrigation should commence them with the least practicable delay.

44  
Works nos 20, 27, 30, 34, 35, & 46 are not to be commenced pending further orders.

As soon as a work has been commenced, the fact should be immediately notified to Government by the Chief Engineer, who should at the same time submit a statement showing the date upon which the orders to begin the work reached the executive officer, any delay that may occur in commencing.

Works nos 3, 4, 5, 16, 17, 18, 19, 21, 24, 25, 31, 32, 36, 37, 38, 39, 40, 43, 45, 47, 48  
require further investigation

and the Chief Engineer  
for Immigration should at  
once issue the orders neces-  
sary to enable him to  
submit full information  
to Government at the earliest  
possible date.

Collectors and District  
Engineers should ~~com-~~  
~~municate with each other,~~  
arrange in common  
as regards the time of com-  
mencement of each work;  
and when the work has  
been commenced the  
District Engineer or officer  
in special charge of each  
work should keep the collector  
at intervals not exceeding  
one week, informed of the  
number of persons that  
can

Can still be accommodated  
on it.

14  
1007  
The works when started  
should be carried out in  
accordance with the pro-  
visions of GO dated 24  
September 1877 No 2847.

The Chief Engineer for  
immigration <sup>in all necessary instructions</sup> should utilize  
to the fullest extent the  
establishments that ~~may~~  
now be available in com-  
mencing the works sanc-  
tioned, and ~~should~~ <sup>if</sup> he  
requires further assistance  
he should at once report  
in detail what further  
help will be needed. De-  
tailed <sup>plans and estimates</sup> projects should  
be submitted as soon as  
possible for those works  
on the sanctioned pro-  
gramme which are now  
without them.
