MINUTE BY THE HON. SIR W. ROBINSON, K.C.S.I.

MR. RICHARDSON'S employment in the further demarcation of the so-called Richardson's line in the Nambalcode Amshom is unnecessary, and his deputation should be foregone.

2. No claim against the Ouchterlony Valley can be prosecuted, it appears, except by Regular Suit, and the statute of limitation has probably run against the claim.

3. No suit can be brought with any likelihood of success, and therefore the prosecution of the "Richardson's line" seems out of place.

11th Sept. 1877.

Dear Mr. Master.

Your letter of the 5th inst. regarding the Nambalcotta Anaikoon boundary.

The portion of the boundary which has to be settled is now in consequence of the abrogation of Nambalcotta

entirely within the Nilgiri District instead of being as formerly a portion of the Nilgiri - Malabar boundary & in a Survey point of view it is of less consequence than before.

So far as the Nilgiri Survey is concerned there is no reason why the definition of the boundary should not be postponed until next season. And then as the Wainad Survey will probably be continued, the Revenue Survey officers from intercourse with the natives will be able to see to what degree of importance the Government attach to the early settlement of the question & the definition of the rights of the Jemmadar whose claims they entertain

If it is considered necessary
that the settlement should
be made this season or indeed
at all it is most desirable
that Mr Richardson should
be dispatched for the purpose
The whole question turns
I believe on the results of
an examination of documents
in record in the District
Court at Caliente and

3050

Mr Richardson is supposed
to have a knowledge of the
papers & a general acquaintance
with the case which would
greatly tend towards an
rapid decision. In short
& the question presses
if Mr R. can be spared I
think Mr Richardson should
come - if not we can
wait.

Yours Sincerely
Abel Stevens

Memo

Employment of Mr. Richardson in Wynaad.

When the mode of carrying out the survey and demarcation in Wynaad was under discussion Colt. Priestley recommended that in order to facilitate operations a Civil officer should be appointed "to settle all boundary disputes in advance of the demarcation party and to assist in the supply of labour."

2 The Board supported this request and suggested

that "Mr. Herbert Richardson
"should be deputed to this duty.
"His knowledge of the country
"and other qualifications would
"render his services very valuable".

No immediate decision
on this point was passed in the
order disposing of these papers,
but in his note the Honorable
Sir W. Robinson observed that
"if we are to take up the survey

of Revenue Survey brought to notice
that Mr. Richardson's services

Nambalacode boundary. The
Board strongly supported this

recommendation and the Government approved (G.O. 18th January 1877 Nr. 131). On a further reference it was settled that Mr. Richardson should be invested with powers under section 30 Act XXVIII of 1860 and that his services would "be made available in September next."

It appears from Major Delmerey Scott's letter of 7th May 1877 Nr. 1172/48 that during the working season of 1876/77 the Wynaad operations "were confined to the completion of the survey of South-East Wynaad, including the environs of Nambalacode," &c. and that "there remains

I see no sufficient cause for the apparent unnecessary delay in completing the Mukkaverry & Nilambur Traverse & the Survey of the Nilambur Valley. I do not consider that sufficient reason has been assigned for the postponement of the Wynaad Survey for one season "the Nilgiri Survey being prosecuted with

"Remains therefore for next season's work in this division about 80 square miles of hill-sketching and the demarcation and survey of a portion of the Nambalacode boundary."

The question for decision was whether the Survey of Wynaad was to be discontinued for a year and the Nilgiris completed and the Government directed the postponement of the Wynaad Survey for one season "the Nilgiri Survey being prosecuted with

"with the utmost diligence, in-

"cluding, of course, the small

"portion of the South East

"Wynaad yet unfinished."

6. It was in reference

to this last order that instructions

were given on 4th September 1877

at Council to ask Major Scott

tion to employ the

by the altered arrangements

and whether Mr. Richardson's

services were now required.

7. His reply is sent up.

The gist of it is that the question

does not press in a Survey point

of view: "In short if Mr.

"Richardson can be spared and

"the question presses I think

"Mr. Richardson should come;

"if not we can wait".

8. I gather from what

Major Scott says that the

boundary which has to be

settled is now "entirely within

"the Nilgiri District instead

"of being as formerly a portion

"of the Nilgiri-Malabar

"boundary". Therefore in ordi-

nary course it ought to be

finished this season under

if

if all the properties are to be marked out.

9. The main question is whether Mr Richardson's services are to be made available now: or if not now when. In either case the sanction of the Government of India seems necessary for the extra appointment. Mr Richardson would have to be relieved of the Cocanada Treasury where in addition to his substantive pay of Rs 600 he draws Rs 100 for Paper Currency and Rs 100 for Registration. These latter sums he would have to give up and it would be necessary therefore to apply for the appointment of a temporary

temporary Deputy Collector and for the grant of a personal allowance to Mr Richardson to make up (1) for the extra allowances given up and (2) for the extra duties involved by his deputation to Wynaad

His Grace the Governor in Council has reconsidered the question of Mr. Richardson's employment in the matter referred to in the paper read above.

The Thumbalacode Anicut being now included in the Tidgiri D.t the definition of the S.E. boundary of the Thumbalacode Estate adopted in the Settlement Valley tract is no longer essential for the settlt. of the D.t boundaries of Kalahar & the Tidgiri & the Forest.
