noted

detach in March, having seen only

PROCEEDINGS OF THE BOARD OF REVENUE,

Dated 15th May 1877.

*Read Statement of Cultivation and
Collection from the collector of
Trichinopoly for March 1877
dated 2 May 1877. N^o 138.*

1. Submitted to Government with reference to their Proceedings dated 29th November 1876. N^o 1855.
2. In the month of March 26707 acres of land were brought under cultivation against an average of 30859 acres for the previous 3 years. Of this area 21290 acres appertaining to the Perambalore Taluk alone.
3. The collections fell off consi-
derably in March, having been only

only Rupees 104265 or 43 per:
cent of the average of the previous
years, viz 238186.

4. It is observed, that the averages
up to the month entered in the
cultivation return do not corres:
pond with the totals obtained
by adding the figures in the
column "in the month" to
those in the column "up to the
month" in the previous return.
This should be explained and
similar discrepancies avoided
in future.
