REVENUE DEPARTMENT.

Read the following paper :—

No. 190. Proceedings of the Board of Revenue, dated 4th October 1877, No. 4,631.

Read the following letter from D. V. NARASINGA, RAO Deputy Collector in charge of Salt, to R. W. BARLOW, Esq., Collector of the Chingleput District, dated Madras, 5th September 1877, No. 482 :—

I HAVE the honor to show in the margin the salt manufactured in the Covelong Division during the last five faslis, the

average of which is 470,000 maunds. The average manufacture of the five previous faslis was 274,000. The average quantity exported to Calcutta and other ports and that sold at the spot during the last five years was 247,000, and if we had not stopped the exportation in Faslis 1282 and 1283 to maintain salt to supply the South Arcot District, where the manufacture failed that year and in this year also for

want of salt to meet local demands owing to the large quantity of salt washed away during the cyclone, the quantity exported would have much increased in that division. The number of pans up to Fasli 1274 were 286, and they have since been extended to 408. You are well aware of the state in which these pans were before, and how much they have been improved. Although a large quantity of our salt in the district has been lately washed away still there are 370,000 maunds on hand stored at that division and 370,000 maunds at Homes' Garden of the manufacture of the same division, together with a small quantity of Semmenjery salt.

2. The sanctioned salary of the Superintendent of this (Covelong) division was 60 Rupees a month when there were only 286 pans, and the average outturn of five previous years was 150,000 Indian maunds. Both have considerably increased as stated above, while this officer has to attend likewise to extensive storage, to the weighing of salt for exportation, and to be present at the retail sales in a small depôt opened at Kelambakum. Particularly he will have to pay great attention during the next manufacturing season so as to supply Homes' Garden Depôt with salt in time. I therefore recommend that a special allowance of 40 Rupees per month be sanctioned to be granted to him until his pay becomes permanently increased to Rupees 175 according to the general scale recommended in the Board's Proceedings, dated 12th July 1875, No. 1,928. In addition to present duties the Board of Revenue in Proceedings, dated 19th October 1875, No. 2,906, proposed to invest the Superintendent with the powers of a Sea Custom Conservator to grant clearances to ships conveying cargoes of salt, but it is not known what orders have been passed on this proposition.

3. Ramachendra Rao, the present Superintendent of the division, is very active and intelligent, and has satisfied me by supplying large quantity of salt every year from his division according to my arrangements, so he deserves encouragement to do his best in this precarious year also.

Salt.

THE whole subject of the pay and position of Salt Superintendents is under consideration with reference to the Salt Commissioners' Report in which greater liberality in the way of salary throughout this grade is generally urged. The Government are not therefore prepared to take up individual cases pending the reconstitution of the Department which they hope will shortly be undertaken.

No. 4,631.

Salt Superintendent at Coimbatore in Chingleput
District. Submitting for favorable considera-
tion of Government recommendation of Deputy
Collector, S. It. Department, for payment of a
special allowance of Rupees 40 per mensem to
— until his pay becomes permanently increased
to Rupees 175 according to the scale fixed by
Board.

The spot during the last 5 years was 24,7000 & if we had not stopped the exportation in 1822 & 23 to maintain salt to supply the South West Dist^{ts}, where the manufacture failed that year & in this year also for want of salt to meet local demands owing to the large quantity of salt washed away during the cyclone, the quantity exported would have much increased in that Division. The number of pans up to 1824 were 286 & they have since been extended to 408. You are well aware of the state in which these pans were before & how much they

have been improved. Altho a large quantity of our salt in the South has been lately washed away, still there are 370000 lbs on hand stored at that Division & 370000 lbs at Home's garden of the manufacture of the same Division, together with a small quantity of Semanary salt.

The sanctioned salary of the Sup^t of this (Colonny) Division was 60 Rs a month when there were only 286 pans & the average outturn of 5 previous years was 159000 Ind. M^{rs}. Both have considerably increased as stated above.

While the Officer has to attend likewise to extensive storages, to the weighing of salt for exportation & to be present at the retail sales in a small depot opened at Kilambakam. Particularly he will have to pay great attention during the next manufacturing season, so as to supply Moris Garden depot with salt in time. I therefore recommend that a special allowance of 40 Rs per month may be sanctioned to be granted to him until his pay becomes permanently increased to Rs 175 according to the general scale recommended in the H. O. No. of 12th July 1875 to 1928. In addition to present

duties the H. O. of No. in No. of 19th Oct. 175 to 2906, proposed to invest the Supt. with the powers of a Sea Customs Commissioner to grant clearances to ships carrying cargo of salt but it is not known what orders have been passed on this proposition.

Ramachandra ^{Row} the present Supt. of the Divn, is very active & intelligent & has satisfied me by supplying large quantity of salt every year from his Division according to my arrangements, so he deserves encouragement to do his best in this precarious year also.

FOR ORDERS.

No 1244

It has long been the intention of Govt to improve the position & pay of Salt Superintendents but the scheme prepared by the Board under their instructions in 1875 is still undisposed of pending the decision of the question of monopoly v. excise. — or perhaps until the appointment of the Salt Commissioner or Collector recommended by the Salt Commission, who will doubtless take the question in hand in revising establishments.

Under the Board's scheme the Salt

Superintendent at
Coralong who now
gets Rs 60 would
draw Rs 175. In
the present paper
the Board forward
for favorable consid-
eration an appli-
cation from the Salt
Deputy Collector
of Chingleput sup-
ported by the Col-
lector for a special
allowance of Rs 40
to this superinten-
dent pending the
general revision
on account of in-
creased responsi-
bilities & good work.

It appears that
in October 1875 the
Board recommend-
ed this man to be
Conservator of the
Port at Coralong in
addition to his other
duties & to draw
Rs 175. but no orders

The increase of Rs

no doubt justly de-

be said of the general
addition to pay pro-
posed by the Board
in 1875 at an annual
cost of Rs 66,000.
