From
The Deputy Collector, Salt Dept.
Chingleput District

To The Collector of the Chingleput
District

Sir,

I have the honor to report
that during the late Chitra
pournamy or full moon on
the 26th, 27th and 28th ultims
when the Ennore Bar was
opened by Colonel Moberly,
a large quantity of water ran
into the back water, so as to
raise it to $1\frac{1}{2}$ feet, and the
channels intersecting the
salt pans about a foot,
which supply is sufficient

to facilitate our manufacture
for about six weeks. The
bar has been closed after
the late full moon tides.
but if the work is
continued at each full
and new moon spring
until we shall have
fresher in the canal,
a small quantity of
water will run into the
back water on each
occasion, and there will
be no obstruction to
our manufacture while
the salt already deposited
in the pans will be

Safe, so that it may not
be washed away, in case
there should be sudden
high fresher or cyclone for
want of a proper escape
to the sea.
