GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

33 1/2

28th November 1877, No. 3,319.

Read the following paper:—

No. 284. Proceedings of the Board of Revenue, dated 8th November 1877, No. 4,943.

Read the following letter from A. WEDDERBURN, Esq., Collector of Coimbatore, to H. E. STOKES, Esq., Secretary to the Board of Revenue, dated 23rd October 1877, No. 407.

With reference to paragraph 7 of the Proceedings of the Board of Revenue, dated 26th July 1877, No. 3,490, received on the 20th October* 1877, I have the honor to state that the double mhote adverted to has been inspected by Mr. Stoney, Resident Engineer, South-West Railway, one of the ablest mechanicians of the day, and stated to be superior to all other modes of raising water practised in this country.

*With Board's Proceedings, No. 4,548, of 28th September 1877.

The practical superiority of the double mhote is seen by the comparative amount of water lifted in the same time by one instead of two bullocks and in diminished tear and wear of the cattle.

Requesting that this letter, as it refers to a matter of the utmost importance to cultivation, be forwarded to Government.

Submitted to Government in continuation of the Proceedings quoted.

(A true Copy and Extract.)

Proceedings of the Board of Revenue

Dated 8th Novr 1877.

Read the following

No. 407.

From:

A. Wedderburn Esqre

Collector of Coimbatore

To.

H. E Stokes Esqre

Secretary to the Board of Revenue

Madras

Sir.

With reference to para 7 of the Proceedings of the Board of Revenue dated 26th July 1877 No. 3490, received on the 20th October 1877, I have the honor to state that the Double whole adverted to has been inspected by Mr. Stoney Resident Engineer S. W. Railway, one of the ablest Mechanicians of the day, and stated to be superior to all other modes of raising water, practised in this Country.

The practical Superiority of the double

* With Bd's Proc. No. 4548 of 28th Sept. 1877.

double mhoke is seen by the comparative amount of water lifted in the same time by one instead of two bullocks. and in diminished tear and wear of the cattle.

Requesting that this letter, as it refers to a matter of the utmost importance to cultivation be forwarded to Government.

Coimbatore Collr's office
23d October 1877

I have &c
C.J. St. Wedderburn
Collector

Submitted to Govt in continuation of Proceedings quoted.

2. The Board do not doubt the recognition of the superiority of the double mhoke by mechanicians. The difficulty is to get the ryots to recognize it so as to avail themselves of its advantages. This as a matter of fact they seem slow to do
