Sir,

I have the honor to enclose copy of a telegram I addressed to Government on 28th instant, as also of another sent to the Board to-day, reporting the occurrence of a gale on 19th (Saturday).

2. A strong wind from N.E. began at 3 A.M. (Saturday). From 5 A.M. the gale was accompanied by rain & increased in force till 7 A.M., about which time it commenced veering to the S.W. The Madras Assistant's Barometer had then fallen to 29° 32'. The Barometer at the Observatory got out of order & suddenly fell to 28° so that its record cannot be relied on. At the S.W. the ^{wind} increased in force and remained very high till about 4 P.M. when it moderated a little & gradually fell by the evening.

3. As I have reported in the telegram the rain was more or less general in the district. The fall of rain was registered at

Bozwada 3.90.

4. The damage done to thatched roofs and
all buildings was considerable. The panic amongst
all classes of people was very great. But no loss of
life is reported. nor any (with the exception of property)

5. I have reports that the gale which was very
severe at Vizianapatam has damaged the salt
very seriously. It has unthatched the huts &
bored great holes in them. I shall however report
further on this. I have sent orders to replace the
thatch and to execute other urgent repairs.
