Confidential

From the Collector of Godavay to the Chief
Secy to Government, D/31 May 1877, No 18.

Referring to your official Memorandum
No 283, dated 7 February last, I have the honor
to inform you that in the Delta taluqs, the crops
being good, there is plenty of seed grain of all sorts
for cultivation this year, but in some places of
the inland taluqs, the well-to-do ryots, who have
a large supply of seeds with them, can supply
on same conditions others in need of them. On
the whole I do not think there is any fear of
short supply of seed grain for cultivating pur-
poses in the District
