Order thereon 21 June 1877 No. 2824

The attention of all District Engineers is called to Circular from the Chief Engineer for Irrigation No. 9/C dated 10th April 1877, and that of the Chief Engineer P.W.D No. 988 dated 17th April 1877, the instructions in which they will take steps forthwith to carry out

out to the utmost extent in their powers. The Government are disappointed that full effect has not already been given to these Circulars

2 It is possible that in some Districts the high prices of food grains may render it difficult to complete Budgetted Works at the rates estimated, and, in such, on satisfactory explanation the Government will be prepared to sanction any needful excess, but such enhanced rates ought not to be commonly required.

3 The rates of the estimates are liberal and would ordinarily cover some fluctuations in labor rates which doubtless must have been taken into consideration in framing estimates to be carried out a year or 18 months after they were made.
