Chennai Dispensary
Kottur 11th May 1877

From C. E. & M. Ross Esquires
Gellah Surgeon
Kottur

To The Deputy Surgeon General
Madras
Pondicherry & Dist
Madras

Sir, I have the honor to report
the result of my Examination into
the Condition of the Relief Workh Cookies
in the neighbourhood of Kottur
on the 30th April and of the Relief
House people on the 2nd May.

2. Relief Cookies first Ex-
amination.

3. Only two were brought
up for Examination of these, one
had gained 2^{lb} in weight. One
remained stationary. Their Condition
continued wretched & poor.

4. Twenty one were examined
Of these eight gained weight. two

2th, One 1/2th Three ~~th~~ and
two 1/2th

5. Eleven last night,
One 2 1/2th two 2th, four 1/2th, four
1th.

6. Two remained stationary.

7. It will be seen on refer-
-ence to the enclosed tables that
since first weighed they have
gained weight to an aggregate of
11th. While twelve last night to an
aggregate of 36 1/2th and three
remained of the same weight.
as on the 15th March. Considering
that all were much under con-
dition when first examined
the result is but encouraging.

8. Boys. Five were examined
two gained weight, One 2th and
one 1th, two last weight One 1th
one 1/2th. One remained stationary.

9. Girls. Seven were examined
three gained weight One 3th, One
2th, One 1th. Four last weight

two 2th, one 1/2th One 1th

It will be seen from
the tables enclosed that comparing
the weights of the crew when first
examined with their weights, when
last examined 13 last night One
1/2th, three 4th, three 3th three 2th
One 1/2th and two 1th = An Aggre-
-gate loss of 37 1/2th. Eight have
gained weight two 4th One 3th
two 2th two 1th One 1/2th = An Ag-
-gregate gain of 17 1/2th. While
one remained stationary.

11. Of the Women from the
time first examined 17 last night
two 6th, One 5th two 4th, one 3th
Five 2th One 1th and One 1/2th =
An aggregate loss of 43 1/2th. Nine
gained weight One 4th two 3th
One 2 1/2th one 2th four 1th =
An aggregate gain of 18 1/2th.
Three remained stationary.

2 Of the date
Of last Examination three last
weight one $2\frac{1}{2}$ lb one 2 lb one
 $\frac{1}{2}$ lb = an aggregate loss 5 lb.

Two gained weight one $1\frac{1}{2}$ lb
one 1 lb and one $\frac{1}{2}$ lb = Aggregate
gain 6 lb. Two remained stationary

13 Of the Girls from first
to last Examination 12 last weight
saw 2 lb three $1\frac{1}{2}$ lb saw 1 lb and
one $\frac{1}{2}$ lb = Aggregate loss of 1 lb
two gained weight one $1\frac{1}{2}$ lb
one $\frac{1}{2}$ lb = Aggregate gain of 2 lb
Three remained stationary

14 I think it is evident
from these results that the
rates of payment to the Cooks
are utterly insufficient. Several
of the Cooks first examined have
since died, others have been
driven by increased sickness

to the general relief house
I have already mentioned the
reasons why the Girls have suf-
fered most. Almost all of the
men, women and children were
in a miserable condition
when last examined. Most of
the men and women and all
of the children were of an age
which would have favored a
rapid increase of weight had
the food supply been sufficient
whereas all classes except the
boys lost weight in the aggregate
to a very large extent and the
boys only gained in the aggregate
1 lb.

15 Most of the elderly men
and women when last examined
were slightly dropsical some
both of the old and young had
symptoms of scurvy although
they were doing a good deal of

Grasses Various serving
plants of an Anti-Corbutic
nature and single fruits
most of the Children are very
sore about the ribs but
pathetic indicating an
insufficiency of Nitrogenous
food

Road Cookies }
employed on } Moen.

Public Works } Twenty three were
Examined, Eleven gained weight
one 6th one $3\frac{1}{2}$ th one 3th
one $2\frac{1}{2}$ th three 2th four 1th =
25th. Six lost weight one
5th one 3th two $1\frac{1}{2}$ th one 1th

one $\frac{1}{2}$ th = $12\frac{1}{2}$ th. Six had not
been weighed in this list before
Women. Twenty three were

Examined. Eleven gained weight
one $3\frac{1}{2}$ th one 3th one $2\frac{1}{2}$ th two
 $1\frac{1}{2}$ th two 1th and three $\frac{1}{2}$ th =

Total 18th. Lost weight one 6th
one $3\frac{1}{2}$ th, one 3th, one $2\frac{1}{2}$ th three $1\frac{1}{2}$ th two
1th, one $\frac{1}{2}$ th = Total 22th. Two remained
Stationary

Boys. Twelve were Examined,
Eight gained weight one $3\frac{1}{2}$ th, one $2\frac{1}{2}$ th,
one 2th, one $1\frac{1}{2}$ th, four 1th = Total 13th.
Two lost weight each 1th = Total 2th
Two remained Stationary

Girls. Eleven were examined
Seven gained weight one $11\frac{1}{2}$ th, two 2th,
three 1th, one $\frac{1}{2}$ th = Total 19th.
Three lost weight, one 2th, one 1th, one
 $\frac{1}{2}$ th, = Total $3\frac{1}{2}$ th. One remained Stationary.

House } Seventeen were examined.
Infants } Five gained weight one $10\frac{1}{2}$ th (in
20 or 21 days) four weeks one 3th, one 2th, two $\frac{1}{2}$ th =
Total $16\frac{1}{2}$ th.

Eleven lost weight one $3\frac{1}{2}$ th,
three 3th, one $2\frac{1}{2}$ th, two 2th, one $1\frac{1}{2}$ th, one
1th and two $\frac{1}{2}$ th = Total $22\frac{1}{2}$ th.

No. 455 One remained Stationary
forwarded for information. I have the honor to be
