I do not think the
Canal establishment
can yet be reduced
there is much to be
done - altho some individual
lengths are reported finished
there are 2 of out 3
bridges to be made -
there are 4,000 men
to keep in order

The Canal in my opinion
is still not safe

Rems:

R. from says he
can't get on with
irrigation repairs in
Venkatagiri without
professional assistance.
He has a private
office at St. Paul's
and he is a head.
but I believe he has
transferred him to
the D. S. Engrs office
on the Canal.
I would suggest that
if this is so he might be
retransferred & that in
addition one or two of
the R. E. on the Canal
might be detailed to
take charge of grangers

The looking of the land
is much advanced.

Some parts of it are finished - The surveying, leveling, & black-pitting, are also probably all done, & it can hardly be necessary to keep up

the same staff of
officers for it as at
the beginning - The
work of measuring
up the earth work
done is a simple
affair which can
be done by a petty
subordinate & I
have presupposed
that some of them

A. Moore
Collector's Office
5th June 1877.

From

J. Grove Esquire,

Collector of A. Moore

To

J. H. Garstin Esquire,

Additional Secretary to Government,
Revenue Department, Fort St. George.

Sir,

In my letter of the 1st May, No. 2100,
disposed of in Government Order, 12th
May 1877, 1758, in requesting orders as to
how the money supplied by the Rajah of
Tenebagiri should be spent and dealt
with in the accounts, I remarked that the
District Engineer would be unable to
assist me in completing the Rajah's
unfinished works and in taking up other
works of the same sort unless he was
supplied with 3 or 4 experienced men.
2. In their order Government direct me
to apply the Rajah's funds entirely to works
of this class, but say nothing about
sending me a man.

S. I.

C8-6-77 R29-6-77

not
possible

3. I need hardly point out that it is a far more difficult task for the Revenue Department to undertake Irrigation works than roads any where, and it is simply impossible for them to do so in a Zamindari, where no estimates for such works have ever been prepared, and no professional advice can be obtained.

4. Accordingly, Government are now placed in this position. In consequence of reiterated expressions of disapproval from them at the Rajah's slackness in spending money on Relief works, the Rajah handed over Rs. 50000 on the 7th April, and nothing whatever of that sum has hitherto been spent except in Polder.

5. In Polder the Deputy Collector has had an Overseer to help him and a considerable number of Lascars and Settlement men and he has been able to take up some of the unfinished works. With regard to Venetajin the District Engineer has

Cannot proceed even with the unfinished works without an Extra Establishment and it is the order under the order passed by Government on my letter to the Board of the 20th May Extra No. 1, Venetajin and Polder are to be left as regards Relief work to him. In Polder and Darsi, the Sub Collector has only a Sub Overseer, 3 Maistries and a Sub Maistry. b. So far as regards Relief, the Roads in progress in Venetajin, Darsi and Polder are sufficient.

I have the honor to be
Sir,
Your most obedient servant.
