No. 3/15

Proceedings of the Board of Revenue
Sdtd 2^d July 1877

Read the following:-

No. 119.

From. L. F. Macfarlane
Special Asst. Collector of
Cuddapah.

To. L. F. Price Esq. Esr
Asst. Collector of Cuddapah.

Sir

I have the honor to submit
the following report upon the conditions of the
Cuddapah Taluk, being coolies, in accordance
with your Circular of March 1st, 1877 for the
work ending June 15th, 1877.

2. The following statement shows the
numbers inspected, and the average of foot,
fair, indifferent and bad.

3. I class all as Bad (including subdividing),
who appear to me to be distinctly emaciated,
while my indifferents comprise those whose condi-
tion is long, as judged from the flatness of
skin and muscle when pressed.

4. The camp upon the Rajapet road
appear to have maintained their condition
best, owing to the comparative cheapness of
provision, in that part of the District, and
the fact that constant work has been found
them.

5. The Cuddapah Coolies at Ramalapur
are

are fair on the whole, but the percentage of bad children is high, the numbers inspected however were very low, owing to many not having come to work when I inspected them owing to a flood in the Papahri, and it is probably a coincidence that I struck on the worst lot altogether.

6. I have hitherto considered the Cuddapah children to be in very good order.

7. The average of indigent boys among the local paupers is large, owing to many of them coming from the villages west of Kamalapur and up the line which have the worst in the taluk.

8. No party has improved, at any rate the women, i.e., though a high standard cannot be taken in case of these paupers who were the worst in the taluk, consisting chiefly of oldest men the bulk of the able bodied emigrated to Koller.

9. The district is very severe in this part of the taluk, of which one part is the bad state of the 3 pie children, numbers of whom I sent off with their mothers to village relief.
