ORDER THEREON, 5th January 1877, No 38

Miscellaneous

THE lists of works proposed to be carried out in the Punganoor Zemindari appear judiciously selected and are approved. The Government note, however, the two items entered in them of 3,000 for "unforeseen expenditure on wells" and Rupees 1,500 for "loss expected from sale of grain to the poor". The largeness of the amount entered for expenditure on wells indicates considerable foresight in that respect, while the Government see no reason for

anticipating loss by sale of grain to the poor. It is presumed it will be either given away gratuitously, or paid away in wages at the market-rates which are hardly likely to fall for some time to come. The Collector will report with reference to the road-works to be undertaken what prospects there are of their being maintained after they are made.
