GOVERNMENT OF MADRAS.

MARINE DEPARTMENT.

16th June 1877, No. 374.

Indian Government Vessels.

Read the following paper:—

No. 23. *EXTRACT from the Proceedings of the Government of India in the Marine Department, (Accounts), under date Simla, the 4th June 1877, No. 9 S.*

READ Financial Department Resolution, No. 3665, of the 31st October 1876, in para. III of which it is directed that returns should be prescribed in the Military (Marine) Department, to be submitted to the Government of India through the Local Government, in order to show periodically the nature of the service actually done by each Indian Government Vessel, and the necessity for her continued employment.

RESOLUTION. The work done and the passengers carried by certain vessels being now fully reported by letters of proceedings in accordance with Article 58 of the Marine Instructions, no further orders appear, in respect to them, necessary. In all other vessels, other than mere row boats, employed in any department of the public service, and from which letters of proceedings are not forwarded, a log or register is to be kept, in Form A attached, and forwarded quarterly to the Military (Marine) Department of the Government of India, through the local authority under whom the vessel is placed. In vessels having a competent officer on board, the log or register will be kept by him, otherwise the officer using the vessel, or under whose authority she is employed, will enter the required particulars.

To further enable the Government of India to judge of the necessity for the continued employment of the different vessels, Local Governments and Departments will, on the 1st of every quarter, send a list, in Form B attached, of all the vessels, other than row boats, employed by them, noting the changes that have taken place since the last return.

When the maintenance of any vessel has been sanctioned, it is not intended that she should be exclusively used by one officer or on one particular duty, but she should, with the authority of the Government or officer under whom she has been specially placed, be considered available generally to be employed as much as possible for the public good, or in any way which may be considered desirable.

Extracts from the quarterly returns will be forwarded by the Military (Marine) Department to the Account Departments, to enable them to check and recover the deductions from the travelling allowance of officers using Government vessels.

Officers in charge of the several offices in which marine expenditure is recorded will furnish quarterly to the Military (Marine) Department, returns, in Form C, showing the expense incurred on account of all Indian Government vessels during the quarter, with a view to the preparation, at the end of the financial year, for the information and consideration of the Government of India, of one complete return showing all vessels maintained by Imperial or Provincial Funds, the actual work done by them and their cost.

ORDER.—Ordered that a copy of the above Resolution be forwarded to all Local Governments and Administrations, for information and guidance.

Ordered also that a copy be forwarded to the Financial Department, and Departments of the Government of India, to the Master Attendant, and to the Accounts Departments.

## INSTRUCTIONS.

Whenever this vessel is used or employed, the officer using her or under whose authority she is used, is to enter in this log or register the particulars of the employment according to the columns provided in the form.

The names of all Europeans, with their official designation, embarked, numbers of natives, and quantity, and general description of stores carried, must be shown.

Private individuals and women must be included.

If the vessel is sent on duty without a European on board, the officer so sending her must enter the particulars.

This register will thus show the work she does. At the end of each quarter it is to be forwarded to the Marine Department of the Government of India, and a new one begun in the vessel.

If this vessel is employed on ferry or such like work, it will be sufficient to give the daily totals of passengers and stores carried.
