2. These men are absolutely necessary in order to work

Village Relief in anything like the way in which it should be.

3. The first three Salugs have been divided into six circles and the last into five.

I will send a detailed state-

ment showing the area, population &c. of these as soon as it can be prepared by the Subcollector.

The villages shown in the accounts show hardly a tithe of those re-

really to be looked to as the whole country, as I have ascertained in the course of inspections recently made by me, dotted all over with hamlets of which some villages, which only appear as one on the list, have as many as thirty and forty. In many of these I have found cases of distress, which should be detected and assisted by the staff employed upon Village Relief.

3. In anticipation of orders Mr. Stewart has been authorized to take on the Inspectors mentioned above. I have &c
