No. 902. Read the following letter from the Superintendent of Revenue Survey, to the Hon. D. F. CARMICHAEL, Secretary to Government, Revenue Department, dated Chepauk, 11th January 1877, No. 114/4:—

With reference to memorandum, dated 9th November 1876, from the Under Secretary to Government, forwarding for my remarks the correspondence noted in the

Extract Minutes of Consultation, No. 26, of 6th margin regarding a temporary establishment applied for by the Collector

January 1854. of Madras for fifteen months, at a cost of

G.O., No. 937, of 21st June 1875. of Rupees 94 a-month, to take up and

G.O., No. 1,385, of 3rd July 1875. complete the work of identifying certain

Proceedings of the Board of Revenue, No. 2,602, of 17th September 1875. survey numbers entered in the accounts as "unknown localities," I have the honor to

state that it appears to me to be advisable that men from this department should be employed in the survey of these holdings, as the cost of the work will be less, and the measurements being made by trained men will plot more readily.

2. For this purpose I estimate at 2 Annas 10 Pies per mensem. The work would be completed in about four months at a total cost of Rupees 272.

3. I enclose a statement showing the area and number of properties to be surveyed in each village of the eight divisions of the town of Madras, prepared from the lists received from the Collector of Madras with his letter, No. 619, of the 20th September 1876.

4. The plotting would be performed in this office and the boundaries of properties inserted in the original maps.

STATEMENT showing extent of Properties, &c., to be metered within the limits of the Town of Madras.

margen regarding a temporary statistician  
applied for by the collector of Madras  
months at a cost of Rupees 94 a month  
to take up and complete the work of  
identifying certain survey numbers  
entered in the accounts as unknown  
localities. I have the honour to state that

it appears to me to be advisable that men from  
this department should be employed in the survey  
of these holdings as the cost of the work will be  
less, and the measurements being made by trained
