From The Honble J. G. Coleman
Acting President Municipal Commission

To
The Honble D. F. Carmichael
Chief Secretary to Government.

Sir,

I have the honor to acknowledge the receipt of the Government Order No 190 dated 13th Instant requesting the Municipal Commissioners to communicate with Mr Pelham Robinson and Colonel Drever Commissioner of Police, to reconsider the proposals made by Mr Barnard in his letter of 10th February 1877, with a view of organising a scheme of divisional inspection for relief of any duties which the present system fails to reach.

2. Mr Pelham Roby to forward for information of Government the Proceedings of a Meeting held at the Municipal Office on the 16th Instant from which it will be seen that it is proposed to

leave

have a Central Committee to control and
manage generally the relief operations of
the whole city with Sub Committees in
each Municipal Division for immediate
executive duties. It is intended that such
leading Residents of the Town as may
from their position or knowledge be able
to render assistance or furnish information
be invited to associate themselves with
the Committees in furthering the object in
view.

3. It is also proposed that the relief
afforded should be in the form of a
money allowance of one anna daily for
an adult and of six pies daily for a
child under 12 years of age and that
an essential condition of the grant of relief
in any division should be that the
person relieved is bonafide a native
resident of that division.

4. The above divisional arrangements are
proposed especially in reference to those
resident inhabitants who on enquiry may
be found to be greatly suffering from
distress and who by feelings of self

respect are debarred from availing them-
selves of the relief now afforded at the
poor sheds. It is respectfully suggested
that the arrangements now in existence
which seem to be unexceptionally good
and under which the local non-caste
and homeless poor and needy strangers
daily receive a meal at the poor houses
will be permitted to continue undisturbed
being disturbed especially as from the
enquiries made it has been ascertained
that the cost of feeding at such depôts
does not exceed 15 pies per head. The
Committee greatly apprehend that the
transferring of upwards of 12000 local
poor who are daily fed at the relief
houses to Divisional pay-offices might
be attended with serious inconvenience.

Letter from the Chairman of the Executive
Committee Monegar Coontry to the Chief

Review the same to forward
Resolution of the Executive Committee of the
Monegar Country dated the 11th July 1877, with
a view to its submission to Government.
The Executive Sub Committee
Recognise the justice and force of the
Chairman observation and the Representations. They cannot but view with a
large amount of distress that it is impossible to
reach and relieve by any measures at present
in operation. High Rate pauperism can only be
checked by means similar to those adopted for
the relief of Rate poverty recent to the
Rajah of Venkatagherry Country, and
they

they accordingly Resolve to bring the distress of the classes in question to the notice of Government, with an earnest request that measures may be adopted, in the several districts of Madras, to assist and relieve such persons as are done in 1866/67.

Order thereon 13th July 1877 - No 1901.

The Governor in Council Resolves to request the Commissioner in Communication with Sir William Robinson and Colonel Ozzer, Commissioner of Police, to reconsider the proposals made by Mr Burkmar in his letter of 10th February 1877, with a view of organising a scheme of Municipal inspection for relief of any distress which the present System fails to reach.

2. The Government will await their proposals for this purpose.
