The Honble D. F. Carmichael
Offs. Chief Secretary
Government

The humble petition of Kolahata
with Moulana Said Khatun (wife of
Munim Said) with 1st child Saloo
both included in the District of Cachar
and other persons known

and hereby sheweth that

1. Your petitioners are poor in consequence of the loss
of the said Saloo, the monthly salary of which
was Rs. 2-0.

2. The salary was fixed at the time when
at the time when it could be obtained cheaply. From
some time back the value of grain has been gradually
increasing and consequently the salaries also paid to the
officers in several departments has been increased. The petitioners
expected that the salary of the amson persons also would be
increased but unfortunately their expectation was not fulfilled.

3. The petitioners have heard that on account of the
prevailing famine the Govt. has sanctioned a relief fund in
aid of the poor and that all the poor and
destitute below a certain amount the petitioners too they
being poor persons were eligible of getting the said relief.
They see that in the Govt. order nothing is said about
the class of persons and consequently they are excluded
from getting the said relief.

4. The petitioners are unable to know by any
means they are excluded from getting the said relief.

with regard to the salary they are to pay that they are to be the same as the salary below that of an American Agent. It is to be understood that American Agents are to be appointed with a view to the following is a brief account of the duties to be performed by American Agents.

1st. To come out with the all work on cases committed to the said coming before the village mooniffs with the final decision of the village.

2ndly. To carry all sorts of accounts and reports of the village mooniffs to the District mooniff court.

3rdly. To keep safe the money properly entrusted in the execution of the business of the village mooniff till they are sold.

4thly. To bring the accused on the complaint before the village magistrate and to furnish the prisoners with the ~~expatriation~~ of the time of sentence.

5thly. To accompany the American adjutant (head) to the place where any serious offences are committed within the limits of the village; to do all the necessary work in connection with them; and to carry the reports about them to the Talooq Cutcherry.

6thly. To accompany the adjutant (head) to the place where the magistrate or police officers come for the inquiry and to perform all sorts of necessary work.

7thly. To bring the prisoners to the Amra Cutcherry with a view to the payment of Ransoms.

8thly. To accompany the American officers who go to purchase (survey) the lands, gardens, hills &c.

9thly. To accompany the American Inspectors (Chetnam) to the place of punishment (as they are) in the hills at the time of harvest.

harbour of full coffee

4187
3

10thly. To carry to the Talooq Cutcherry the monthly reports and reports showing the price of grain &c. every month.

11thly. To carry weekly reports about small pox to the Talooq Cutcherry.

12thly. To carry daily reports about cholera to the Talooq Cutcherry during the time of its prevalence.

13thly. To carry monthly the money of revenue collected in accompanying the American adjutant (head) and Inspectors (Chetnam) to the Talooq Cutcherry.

Besides the said works the persons are to go to the Talooq Cutcherry for ~~at~~ several other purposes and have several other works to be performed.

5. Such are the works to be performed by the village persons. Each village has only two (2) persons and these two persons alone are to discharge all the said duties. They cannot enjoy fully from the Rs. 2-8. for they are to pay from this small amount the several ferry charge, to go to the Talooq Cutcherry and the District mooniff court. There are about three rivers to be crossed in order to reach the Talooq Cutcherry from the most distant American villages and particularly from the most distant American of the Talooq. For crossing a river crossing them rivers once the persons are to pay one Anna from this small amount. During the time of the prevalence of Cholera they are to go back to the Talooq Cutcherry and thus one person is to go 15 times in month. Consequently deducting 15 annas from Rs. 2-8 each person has only 13 paise left to him for his maintenance in a month. Some Inspectors are about 15 miles distant from the Talooq Cutcherry and a person is to travel 750 miles in a month to go

and come back to the village in a month. As mentioned above
 For this and other works in the village a peon after
 deducting the ferry charges has only 9 left.

6. It seems to the petitioners that the above
 circumstances are not up to the time come within the reach
 of the Government if such circumstances were within the
 reach of the Govt. there would certainly be some relief
 to these peons. The petitioners have heard that the Govt.
 Order is to grant the relief batta to those of peons below
 a certain salary. It is a matter of great importance
 if this Order has no connection with the petitioners who
 are officers having the least salary. In this taluq
 only 5 maset peons of age are obtained for one maset
 such being the case the peons are scarcely sufficient for the
 maintenance of a peon petitioners) rule for half maset.

7. The petitioners therefore propose to
 with all possible delay to the above circumstances for the
 kind consideration of His Grace the Government to
 obtain an order on your petitioners behalf to grant the
 relief at least the minimum relief batta to the maset
 peons also.

For which a copy herewith enclosed and that
 your petitioners shall be in only bound but pray
 for the same.

W. Layan, Esq.,
Malacca Office,

J. W. Grantin, Esq.,
Additional Secretary, to Govt.
Malacca.

Sir,

I have the honour to return the
petition forwarded with your endorsement
dated 23rd June 1877, and to state
that as the govt. servants, the Petitioners
come within the ruling in the G. O.
quoted in the endorsement. I at
first thought the terms of the order
of the Government of India allowing
Famine batta were wide enough to
authorize the grant thereof to
Petitioners, but the Board Orders,
forwarded I presume in the G. O.
quoted, (Copy of which has only
been lately obtained) were
against it.

the petition because it has not
been reported for report generally
I charge the Comm. to be
Sirs,
Yours most obedt. servant

J. P. Feltman

2. I take this opportunity
of bringing to the notice of Government
the increasing difficulty that is felt
in this District in getting work
performed by the class of Native
servants to which Potters belong.
The fact follows lately brought to
notice in one instance his inability
to get men willing to perform
the work on the miserable pittance
which is paid to Potters.

3. We had with Vital Statistics
the work of these men has pro-
diginally increased of late years
and it is only a question of time
as to how matters will come to
a dead lock. I trust, however,
I am reassured by their praying
for increase to their pay.

4. I do not notice the
specific facts asserted in the

The petitioners will be informed
that the Gov. ^{is anxious} desires to accord
to them request.
