Revenue Department

N<sup>o</sup> 3393

Proceedings of the Board of Revenue.

Dated 20<sup>th</sup> July 1877

Read the following

N<sup>o</sup> 519

Board's R. N<sup>o</sup>

7907

From

R. W. Barlow Esqre,

Collector of the Chingleput District

To, C. A. Gattin Esqre,

As Secretary to the Board of Revenue  
Madras

Sir, Adverting to para 1 of G.O. dated 5<sup>th</sup> May last N<sup>o</sup> 1648 R.D., I have the honor to submit my report on the result of the alteration in the scale of diet in Relief Camps therein sanctioned for the fortnight ending Saturday the 7<sup>th</sup> Instant.

2. The Special Relief Officer in charge of the Pallaveram and Poonamallee Relief camp says "the new diet scale at present in force in my camps is amply sufficient; there is certainly a sameness about it and a little variation would do no harm; still as I have said, the quantity is ample". Lieut Lockyer in charge of the Kortilliar camp says

that the inmates are "steadily progressing in their condition". The Sub Collector states that some slight improvement has taken place in the physical condition of the inmates of the Relief camps at Chingleput and Conjeveram, while the Temporary Deputy Collector in charge of the Trivellore Taluk says "the old scale of diet seems sufficient and quite suited to the circumstances and wants of paupers with the single exception of rice, the new scale of diet seems to me a luxury to which paupers are not accustomed and this is the general opinion of all natives".

3. I concur with the Temporary Deputy Collector.

I have &c

Chingleput District,  
Collector's Office,  
Madapat 14 - July 1877.

(Signed) R. W. Barlow  
Collector.

Submitted for the information of  
Government.

The

Memorandum

With reference to the Govt. the  
Govt.'s remark on F. No. 5737.

The undersigned has the honour  
to state that Messrs. General Gordon  
& Smith recommend the diet.

Set out in the end of their report  
dated in G.O. 5th May 1848

"in respect of all classes now in  
~~the~~ Camp." and the G.O.

decide that this dietary be  
adopted at all relief Camps.

Yours  
H. J. J.

30.7.77.

2. The Collector considers the scale of diet  
prescribed by G.O. dated 5<sup>th</sup> May 1877 N<sup>o</sup> 1648  
more liberal than is necessary -

(True Copy & Extract)
