By Reg. Hd of the

Sir, With reference
to the remarks by Genl
in para 3 of Proceedings
of the 12th June 1877 No 1962,
that "Mr Wessertum
"would have been well
"advised had he abstain-
"ed from appealing to the

"Douglas in what was in
some measure a contro-
versy with his superior
"Officer," I have the honor
to point out that I am
called on me for a re-
port on a specific
subject which was the
allegation that there
was "a great an utter
absence of 'Beak Trees'
in the Anawallay forest
of under 25 years of age,
that in order to reply with
correctness in the report
called for, I had to re-
fresh my memory with
information derived
from my former subordinates.

2. I explained fully
my reason for making
the reference for infor-
mation; the intelligence
that the exhaustion of
beak dated for 25 years
was so unexpected, that
it would never have
occurred to me to make
in this or such a subject
but to avoid any possible
error in replying to the
order of fact & having no
time on my hands to go
to the forest, no longer
in my charge, I took
the only possible means
of acquiring information
on which to base my
report.

3. Possibly, if I had reported that to the best of my recollection, that there were oak trees in various ages of growth, it might have been objected, that this information was vague, as it concerned the very point on which a report was called for from me.

4. I trust therefore in consideration of these circumstances, and with recall the implied censure of inconsiderateness involved in their

remarks. I cannot but feel grieved that such should have been made.
