Order thereon 10th August 1911. No. 569W

The Governor in Council has considered the papers given by Colonel Ingham, in explanation of his orders respecting the removal of the barricading of the doorways where the grain had been stored in the new building at Kadri, and the ejecting of Conductor Farley from the room he occupied, while temporarily engaged in examining the condition of the grain then stored at Madras. While Colonel Ingham's explanations show that

that he intended only to act in rigid
adherence to the strict letter of his
rules, the Government cannot ac-
cept the reply as altogether satisfactory.
An officer of Colonel Matherly's standing
and experience should have recollected
that, at such a time of pressure
as the present, every officer should
have acted with a view to the general
interest of the public service and
have exercised any necessary forbearance
to avoid possible inconvenience to
officers who know nothing of the rules
of his department, and should have
communicated with the Civil De-
partment before removing any
protection considered by them neces-
sary for the safety of the grain.
