RELIEF REPORTS FOR THE WEEK ENDING 28th JULY 1877.

REVENUE DEPARTMENT.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 3rd August 1877, No. 3,618.

The Relief Reports for the week ending 28th July will be submitted to Government with the usual statements and maps as marginally noted.

2. *Prices.*—The rapid rise in prices which has been noticed in recent reports appears to have been somewhat checked by the general improvement in the condition of the standing crops owing to the late rains; in *Kistna* and Coimbatore there has been a slight fall in prices, and in Salem they may be said to be stationary; in *South Arcot* there was a marked decline in the price of cumbu, due no doubt to the fact that the newly harvested grain is coming in to the market; *Nellore* and *North Arcot* alone show any considerable advance in the price of rice. Turning to details for each district in *Nellore* the most marked feature is a very sharp rise in the prices of all grains at Venkatagiri; in Kandukur also, there has been a considerable advance; in *Cuddapah* there are no very marked fluctuations; in *Bellary* prices have gone up, chiefly in the Head Assistant Collector's division, rice being quoted at 4·32 seers per rupee at Penagondah and Hindupur; this is due to the insufficiency of the market supplies, which has formed the subject of correspondence. In *Chingleput* the price of rice has risen at three stations and fallen at three; dry grains are stationary. In *North Arcot* there is again a very serious rise in the price of rice at Tripathy, only four seers being procurable for a rupee; there is also a marked advance at Tribiny, Gudiattam, Madupauk and Venkatagiricotta, the increase is explained to be due to decreased importations, but the Board do not see why it should chiefly affect places like Tripathy, Tribiny, and Gudiattam, which being on the line of railway, should be exceptionally well supplied; no dry food grains are quoted for Wandewash; this should be explained; it can hardly be that they were not procurable at all. In *South Arcot* the only point to note is the fall in the price of cumbu in the Villupuram, Cuddalore and Chidambaram talugs. In *Tanjore* there has been a rise in prices at Perambalur, but at Udiyarpalem rice has fallen again; in *Madura* there is no noticeable change in *Tinnevelly*; the pressure of high prices is greatest in Sivagiripattur; in *Coimbatore* there is a still further advance in the prices of rice at Collegal, barely four seers being procurable for a rupee; elsewhere there is a tendency to fall, in *Salem* prices of dry grains are stationary, and in *Malabar* rice is very dear and dry grains are not quoted, this should be explained. The highest and lowest prices for rice and the dry grain most commonly in use are given in the margin.

3. *Rainfall.*—It is with pleasure that the Board have to record a fall of rain in every district during the week, which has in many places saved the drooping crops; so far the influence of this burst of the monsoon has been felt chiefly in the northern districts, but the Board trust that it will extend more widely over the south.

In *Kistna* the falls have been very heavy and general, the average for the district being 3·47 inches; the rain is stated in the Collector's weekly telegram to have saved the surviving dry crops and to be useful for sowing and transplanting. In *Nellore* rain was registered at 7 stations, and at Gurgole and Darsi 12 inches were obtained; in *Cuddapah* the fall was general throughout the district, except apparently at Madanapalli; in Pullampet as much as 2½ inches were registered, and at Cuddapah, Pulivendla, Jammalamadugu, Proddatur, Sidhout, Kadiri and Kamalapur between one and two inches fell. This welcome intelligence should have been telegraphed to the Board; no intimation of it was received till the receipt of the weekly returns.

In *Bellary* also the rain was general, except in the south, but only over a portion of the southern taluqs. At Hospet 21 inches were recorded, and at Gooty, Anantapur, Kadiri, Hathigh, Hathsih, Adoni and Alur two inches and more. The hospital reports from Kurnool have increased the absences here in Bellary every where, and also that the causes are stated to be fever. In *Cuddapah* the fall was very light at the present. In *Nellore* and the hill zone also in the north of the district, in *North Arcot* also, the rain was partial, and nowhere, except Arcot, reached 1 inch. In *Trichinopoly*, *Madura*, *Tinnevelly* and *Coimbatore* there was a more widespread, and in some districts heavy, fall, but elsewhere the rain was slight, and in Salem nothing more than light showers occurred except at Trichinopoly.

4. *Charity and Outlay.*—The grants up to the 28th July aggregated Rupees 2,13,87,383, and the outlay reported was as follows:—

The increase during the week was very considerable in the districts of Nellore, Cuddapah, Bellary and Madura. In *Nellore* the increase is due to the opening of new works, and to the fact that returns for Kandukur, Kanigiri and Podili have been supplied this week for the first time; the

under the supervision of the Department Public Works do not appear the rest of the district numbered 3,245.

7. In *Cuddapah* numbers are still greatly on the decrease, the reduction of numbers being largely due to the cessation of tank-work. In *Bellary* numbers have increased in Hospet, Kudligi and Sandur, but decreased in Bellary, Siruguppa and Adoni. In Sandur the decrease is due to stoppage of works. The numbers on the Bellary-Hadgi Railway were 8,824.*

8. In *Chingleput* there is a slight decrease; it occurs in Madurantakam, but there is a great discrepancy between the figures entered in the comparative memorandum which accompanied the return and those given in the returns themselves for this taluq; this should be explained: the numbers on the Conjeveram-Chingleput line rose to 25,516. In *North Arcot* the increase occurs chiefly at Vellore; no explanation is afforded.

In *Madura* numbers have swelled in Tirumangalam and Palni owing to the failure of the harvest and want of rain. In *Coimbatore* the falling off appears to be due to the coolies being in transit from one work to another. In *Salem* fresh works have been commenced in Dharmapuri and numbers have increased in that taluq.

9. The total number of famine coolies working under the supervision of the professional Department was 3,26,220 against 2,22,490 in the previous week; the figures for Kurnool are those for the week ending 21st July, and no particulars of this nature have been received from North Arcot.

10. The enhanced rate of wages appears to be in force everywhere except in parts of Nellore and North Arcot; the explanation called for is awaited.

11. *Gratuitous relief.*—The following are the district totals:—

12. There is again an alarming increase in the number of those in receipt of gratuitous relief, testifying to the very severe pressure of distress; its intensity appears to have been much more widely felt during the past fortnight, for in that period no less than two hundred and [illegible] thousand paupers have been added to those on the hands of the State. During the week under review Nellore, Cuddapah, Bellary, Kurnool, Chingleput, South Arcot, Madura and Coimbatore contribute very largely; the increase is nearly equally divided between camps and village relief. In Nellore, Chingleput, and Coimbatore it occurs chiefly in camps and relief-houses; in Cuddapah, South Arcot and Madura in villages; in Kurnool under both heads; whilst in Bellary there has been extensive drafting of inmates of camps and relief-houses to villages. The increase in the number of three-pie children is not so large as in the previous week; it occurs almost entirely in Bellary, where 6,500 additional children were paid the prescribed dole; in Cuddapah there was an increase; in Kurnool an equivalent decrease. The marginal figures show the progress of measures taken for gratuitous relief. The increase in relief-houses occurs in Coimbatore and Salem, where 11 and 14 additional centres were established respectively; the decrease in inspection circles occurs in Ramnad, it is not explained; in Bellary and Nellore there was an increase; the extension of the village relief system appears to have been general except in Salem, where there has been a falling off owing to the greater popularity of the camps apparently in Nellore.

	21st July.	28th July.	
Number of relief centres ...	424	451	+ 27
Inspection circles formed ...	790	783	— 7
Villages in which relief was given.	8,056	8,617	+ 559

In *Nellore* the increase is accounted for in a great measure by the arrival of those relegated from Madras camps. In *Cuddapah* Rudvail, Vellpaud and Kadiri contribute most largely to the increase, enhanced prices and the greater severity of distress being the causes assigned; in *Bellary* Adoni, Bellary, Raidrug and Anantapur chiefly furnish the additional recipients of relief. In *North Arcot* returns for Tripathy are wanting, otherwise this district also would have shown a considerable increase; the figures for Arcot, as compared with those for the preceding week, indicate that the returns for that taluq are not complete. In *Chingleput* the increase was general, and in *South Arcot* more widespread distress has necessitated the inauguration of measures of relief throughout a much larger portion of the district; in *Madura* Tirumangalam and Peraeculum contribute most largely, and in *Coimbatore* the pressure is being more intensely felt in the Sub-division and Paladum. In *Salem* the whole increase is accounted for under camp relief in the Salem taluq it is partly attributed to the establishment of nursery kitchens for children.

13. The following statement shows the rates of reported mortality in camps and villages, calculated on the average strength for the week under report and that preceding. The average is slightly lower:—
