MEMORANDUM.

In reply to the letter No. 145, of the 14th instant, from the District Engineer, Trichinopoly, the undersigned has the honor to say that it appears from the letters forwarded that—

1st.—For certain channels considerable tracts of padugay land have been set apart to furnish materials for the construction of corambhoos at the heads of these channels and for the maintenance of the heads.

2ndly.—For other channels, at least this would seem to be implied, there are no such reserved padugays, and consequently materials must be obtained from the plantations in charge of the Irrigation Department.

2. The undersigned is of opinion that no materials should be given gratis when reserved padugays are available, but that in the other case rental should be provided by this department which has succeeded to the charge of the plantations. The same should be managed under proper regulations, and must be taken from and on such plantations as the officer in charge of the part of the river concerned authorize.
