(Enclosure)

(Calcutta)

Sp. 6.

Trivellore
9th August 1847

From Surgeon B. C. C. Gray.

Sanitary Medical Officer
Chingleput Dist.
To J. W. Parlow Esq.
Collector, Chingleput Dist.

Sir, I have the honor for-
bring to your notice the follow-
ing points in connection with
the Relief Camp at this place.

(a) The formation of a well
working hospital under the
present personnel, apothecary is,
I am afraid, impossible, and
this for the following reasons:-

(1) Mr. Almey, the pres-
ent Licensed Apothecary
is old and decrepit
- a quality not
development
Yesterday
very small

4816
Children, together with a few
men and women and asked
him to register their names, and
place them in a shed (an office
shed vacated for this purpose)
for medical treatment and
Hospital diet. This morning
when I called at the camp to
see how the sick were and what
arrangements had been made
for their comfort, I found the
shed, placed at his disposal, occu-
pied by a portion of the office
establishment, and none of those
I picked out yesterday were to be
seen. On inquiry, I heard that
after I left, the apothecary left
his office and abandoned the sick
to their own devices - Mr.
Almey, I found in his appear-
ance at the camp about 9-30
[2] the apothecary lives
at

at Tripator, 5 miles from
the camp, and therefore this
precludes the possibility
of his having a constant and
vigilant supervision over the
Hospital. A pensioned Apothecary
or a pensioned dresser,
who can live in or near the camp
will be the most desirable and
economical. I hear from
Mr. Krishnamma, the Deputy
Collector that about 1000 inmates
are to be sent here from the
Chinnamallee (Poonaallee)
Camp, if this be the case, it
will call the more urgent
for a medical man. I have
been in touch with Mr. [unclear]
be required to [unclear] the spot.
Frightful
disease a
and I [unclear]

Mr. Mathayya
is in charge
of the Pensioners
at Tripator

18/6/97.
therefore, to write pressing
to you on this matter. I
trust this will meet with
your earliest consideration
(b) There is difficulty
of obtaining good drinking
water. The small stream to
the north of the camp contains
some water, but this is stag-
nant in the hollows of its
bed and is polluted by the
people in general. I have
recommended that a well
be dug in the bed of this stream
to meet present demands. Mr.
Krishnamma has promised to
carry this into execution
(c) Many women appear
in a state of almost
complete [unclear]. Kindly
arrange for the distribution of
clothes

clothes.
