From Colonel F. J. MOBERLY, R.E., Superintending Engineer, Chingleput, to the Chief Engineer for Irrigation, dated St. Thomas' Mount, 25th July 1877, No. 1582.

I HAVE the honor to request early sanction for the enclosed estimate for a
One Survey plan. Surveyor to examine the banks of the
„ Estimate. Corteliar and Naggery rivers from the
Madras Railway bridge to Tiruvilambudur,
as if the flood does pass over the bank and cause any of the damage now attributed to it
by some, the throwing up of an embankment will be useful famine work. The statement
of its overflow is denied by others, so that I am unable to decide without levels.

SUBMITTED to Government.

2. The lines of levels should generally cross the river at right angles which can be effected by a slight diversion at the river.
