Account.

Read the following paper :—

No. 11. Endorsement of the Chief Engineer for Irrigation, dated Fort St. George, 29th August 1877, No. 149 I.

From Colonel F. J. MOBERLY, R.E., Superintending Engineer, Chingleput, to the Chief Engineer for Irrigation, dated St. Thomas' Mount, 7th August 1877, No. 1,766.

I HAVE the honor to inform you that on the sanction conveyed in your memorandum, No. 926, dated 12th August 1875,

1 Estimate.
1 Plan.

the improvements to the Thattan waste weir in the Chembrambaukum tank (estimate Rupees 1,300) was proceeded with and the work has been completed. The Examiner, Public Works Accounts, however declines to admit the expenditure on the work on the grounds that the sanction of Government is required to the same; the plan and estimate are therefore herewith forwarded, in view to the necessary sanction being obtained. I should add that there was a saving of Rupees 282-5-3 on the work, due to stone required for concrete and a quantity of rubble stone having been met with in the vicinity of the work, and to a decrease in rates, as actually executed, the work having been carried out departmentally. The amount requiring sanction is therefore only Rupees 1,018.

SUBMITTED to Government.

2. At the time the reformation of the lower apron of the Thattan surplus weir of the Chembrambaukum tank was undertaken, such extensions and improvements were supposed to be chargeable to Repairs, and were not therefore considered to require the sanction of Government, or they would have been dealt with in G.O., 20th August 1875, No. 2,402.

(Signed) JOHN MULLINS, Colonel, R.E.,
Chief Engineer for Irrigation.

No. 12. ORDER THEREON, 3rd September 1877, No. 285 I.

THE Examiner of Public Works Accounts is authorized to pass the expenditure on the improvement of the Thattan surplus weir of the Chembrambaukum tank. It is observed that the cost of the work has been Rupees 1,018 against an estimate of Rupees 1,300.

2. This sanction has been registered as No. 135 I of 1877-78.
