Read the following Proceedings of the Madras Government, dated 6th December 1876, No. 1,929, Revenue Department :—

ABSTRACT.—*Works intended for execution from Local Funds in Bellary.*—Regretting to observe that — should have been taken up and paid for from Imperial Funds, and desiring the Board of Revenue to consider the desirability of asking the Local Fund Board to transfer the funds.

The Board see no objection to the proposed measure if Government desire it.

2. Collectors of distressed districts will report what allotments, if any, have been made from Local Funds for works on which Imperial Funds are now being or are about to be spent for relief purposes to enable the Board to cancel the allotments to the Public Works Department already made.

3. The allotments thus transferred will be credited by the Collector to Imperial receipts, but entered in the Local Funds accounts as expended on the particular works. This course is preferable to making the allotments in favor of "Other Agency," as in the latter case separate accounting would be required.
