~~Mis.~~

Dated 9-2-1977 197

***Not to be folded or roughly handled***

*Proceedings of the Madras Government, Revenue Department,*
*9th February* 1877.

**Famine Relief.**

No. 227A. Read the following Proceedings of the Board of Revenue, dated 31st January 1877, No. 381 :—

Read the following letter from C. T. LONGLEY, Esq., Collector of Salem, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated 21st January 1877, No. 328-423. N.

In Proceedings, No. 3,085, dated 6th instant, Rupees 73,000 were sanctioned for relief-works in the principal division, and in the Proceedings noted in the margin Rupees 17,000 were sanctioned for the works in the sub-division. The total sum sanctioned for the district amounted to Rupees 90,000; the expenditure (returned) amounted up to Saturday, the 13th instant, to Rupees 62,000, leaving Rupees 28,000, which included also sums expended but not returned. A large sum has been issued to paymasters and village officers entrusted with minor vilage improvements, and the amount at credit in the taluq is very small.

No. 2,597, dated 18th October 1876.
No. 2,650A, ,, 24th ,, ,,
No. 2,964, ,, 24th Nov. ,,

2. The works sanctioned and in progress or to be commenced amount to Rupees 1,86,430 as below :—

| | Rs. |
|---|---|
| Sub-division ... ... ... ... ... ... | 85,180 |
| Principal division, including the Head Assistant's and General Deputy Collector's divisions ... | 1,01,250 |

List No. 1 gives particulars of these works.

3. Besides these a large number of irrigation works (both major and minor) have been selected in communication with the Public Works Department to be undertaken as relief-works. These are detailed in List No. 2; some of these have been sanctioned, but not put in hand; some sanctioned and commenced, but left incomplete; and others estimated for, but not sanctioned for want of sufficient funds in the irrigation allotment of the district; all these have now been undertaken from the State Relief Fund, and their total cost amounts to Rupees 76,420. They are all works which, in addition to the advantage of providing persons seeking relief with employment near their homes, will prove remunerative and permanently beneficial to the interests of Government. A further list of such works is under preparation for the principal division, with the necessary estimates for such of them as have not already been estimated for; the cost of these will be about Rs. 30,000. The cost of irrigation works to be begun will thus amount to Rupees 1,06,420, to which should be added Rupees 34,400 required for roads, water-supply, and miscellaneous village improvements as per List No. 3. The total cost of works in progress and to be commenced amounts to Rupees 3,27,250. Deducting Rupees 90,000 already sanctioned, and which, as explained above, has been almost expended, Rupees 2,37,250 are still required, of which I request the Board of Revenue will be pleased to sanction Rupees 1,00,000.

4. I have, pending the Board's sanction, requested the Treasury Deputy Collector to place the Divisional and the Department Public Works Range Officers in funds for carrying out relief-works in their respective charges.

5. A report of the progress of works and the results attained in the sub-division has been submitted with my letter, No. 308-29, dated 21st instant. Similar reports from other divisional officers will be sent as soon as received.

6. In the meanwhile I request the Board's early sanction of the grant applied for.

ENCLOSURE NO. 1.

---

With the foregoing letter the Collector of Salem submits three lists, one showing relief-works sanctioned and in progress, one showing irrigation works selected in communication with the District Engineer, and one showing further works for which estimates are under preparation, and asks for a further grant of Rupees 100,000. The grants already made for the district are Rupees 1,11,000, and the outlay on works and gratuitous relief Rupees 82,104. Further funds are therefore wanted, and the Board place a sum asked for at the Collector's disposal.

2. List No. 1 amounts to Rupees 1,86,430. The Board find only lump allotments to taluqs for Rupees 19,700 in the principal and Rupees 30,730 in the sub-division, leaving Rupees 1,36,020, of which details are given. Of this amount Rupees 51,420 are allotted for irrigation works and Rupees 85,100 for roads. The Collector will explain what the lump allotments refer to.

3. Nothing is said as to the extent to which these works have been properly estimated for. No estimates have reached the Board, but they observe no less than ten works in the principal division and four in the sub-division which are beyond the Collector's competence to sanction, the estimates being above Rs. 2,000. One work, the repair of the Aveni Peroor tank, requires the sanction of Government. The Collector will report on the subject of this paragraph.

4. List No. 2 consists entirely of irrigation works, for the most part very small ones, and many of them including masonry works. The Collector says that these have been either sanctioned or estimated for, and are remunerative works. They number 168, and the aggregate cost is Rs. 76,419, giving an average of Rs. 454. The Collector states that these works have been undertaken, by which it is presumed he does not mean commenced and in progress as, if this were the case, the works should appear in List No. 1. The Board much doubt whether the resources of the district in respect of supervision are sufficient to look after these vast numbers of small works, and the Collector is requested to report further on this subject without delay. The Board note that only two of the works in List No. 2 are such as to require superior sanction.

| | RS. |
|---|---|
| Oossoor Tank... ... ... ... ... ... | 2,000 |
| Sendrai Anicut and Channel .. ... ... | 3,049 |

Mr. Longley will report whether these are already sanctioned works or not. The first-named appears in List No. 1 also, with an allotment of Rs. 3,000. Besides the irrigation works in List No. 2 estimates amounting to Rs. 30,000 more are under preparation.

5. List No. 3, amounting to Rs. 34,41[illegible], consists almost entirely of road-works, but Rs. 18,500 are proposed for works of water-supply and improvement of village sites in the sub-division. Some of the road-works are existing roads, and appear with a mileage allotment. The Board presume that the intention is to collect and store metal upon them. The Collector will report and furnish further information as to the details of the grants, amounting to Rs. 18,500, above referred to. Pending explanation the works shoul not be commenced.

6. The lists will be submitted to Government.

No. 227B. ORDER THEREON, 1[illegible] February 1877, No. 565A.

Miscellaneous.

THE Governor in Council is of opinion that the masonry works entered in List No. 2 are ill adapted for relief-works. His Grace awaits the Collector's report on the various points noticed by the Board in their Proceedings, and approves of special attention being paid to

irrigation works and of abstention from making new roads for which there is no prospect of maintenance.

FAMINE RELIEF, No. 447B.

*Lists of Relief Works, Salem District.*—Considering the masonry works in List No. 2 to be ill adapted for relief-works, awaiting the Collector's report on the various points noticed by the Board in their Proceedings; and approving of special attention being paid to irrigation works and of abstention from making new roads for which there is no prospect of maintenance.

Revenue Department

Proceedings of the Board of Revenue dated 31st January 1877.

Read the following.

L. 328.
A. 42

From The Collector of Salem

To The Secretary to the Board of Revenue &c. &c.

Sir

In Proceedings No. 3085 dated 6 Instant Rupees 73,000 were sanctioned for Relief Works in the Principal Division, and in the Proceedings, noted in the margin, Rupees 17,000 were sanctioned for the works in the Sub Division: The total sum sanctioned for the District amounted to Rupees 90,000; the expenditure

&c.

No. 2597 dated 18 October 1876. — dated 24 Octr. 1876.
No. 2964 dated 24 Novr. 1876.

(returned) amounted upto Saturday the 13th instant to Rupees. 62,000, leaving Rupees. 2P,000, which included also sums expended but not returned. A large sum has been issued to Patwaries and village officers entrusted with minor village improvements, and the amount at credit in the Taluq is very small.

2. The works sanctioned and in progress or to be commenced amount to Rupees. 1P 6,430 as below

| | |
|---|---|
| Sub Division | P 5,180 |
| Principal Division including the Head Assistants and Second Deputy Collectors Division. | P 101,250 |

List No. 1 gives particulars of these works.

3. Besides these a large number of Irrigation works (both major and minor) have been selected in connection with the Department Public Works to be undertaken as relief works. These are detailed in list No. 2; some of these have been sanctioned, but not put in hand, some sanctioned and commenced but left incomplete, and others estimated for but not sanctioned for want of sufficient funds in the Irrigation allotment of the District; all these have now been undertaken

from the State Relief Funds, and their total cost amounts to Rupees 76,420. They are all works which in addition to the advantage of providing persons seeking relief with employment near their homes, will prove remunerative and permanently beneficial to the interests of Government. A further list of such works is under preparation for the Principal Division with the necessary estimates for each of them as have not already been estimated for, the cost of these will be about Rupees 30,000. the cost of irrigation work

works to be begun will amount to Rupees. 106,420 to which should be added Rupees. 34,400 required for roads, Water supply and miscellaneous village improvements as per list C.N.3. The total cost of works in progress and to be commenced amounts to Rupees. 327,250

Deducting Rupees. 90,000 already sanctioned and which as explained above has been almost expended. Rupees 237,250 are still required of which I request the Board of Revenue will be pleased to sanction Rupees. 100,000.

I have pending the

4.

Board's sanction requested.

The Treasury Deputy Collector to place the Divisional and the Deputy Public Works Range Officers in funds for carrying out Relief works in their respective charges.

5. A report of the progress of works and the results attained in the sub division has been submitted with my letter of No. 301/29 dated 21st Instant. Similar reports from other Divisional officers will be sent as soon as received.

6. In the meanwhile I request the Board's early sanction of the grant applied for.

I have &c

Salem Collector's Office
21st January 1877

Sd/ C. T. Longley
Collector

X

40/10

With the foregoing letter the Collector of Salem submits 3 sketches one showing Relief works sanctioned and in progress, one showing irrigation works selected in Communication with the District Engineer, and one showing further works under preparation; and asks for a further grant of Rupees 1,00,000. The grant already made to the District are Rupees 111,000 and the outlay on works and gratuitous Relief Rupees 82,104. Further funds are therefore wanted and the Board pleased

the

the sum asked for at the
Collector's disposal.

2. List No 1 amounts to Rupees 16,430: the Board said only Rupees 2 lakhs for Rupees 19,100 in the Principal and Rupees 30,730 in the Sub Division leaving Rupees 136,520 of which details are given of this amount, Rupees 51,420 are allotted for irrigation works and Rupees 85,100 for roads. The Collector will explain what the lump allotments refer to.

3. Nothing is said as to the extent to which these works have been properly estimated for. No estimates have

have reached the Board but they observe no less than 10 works in the Principal Division, and four in the Sub Division which are beyond the Collector's Competence to sanction, the estimates being above Rupees 20,000. one work, the Repair of the Chenni Perumtank, requires the sanction of Government.

The Collector will report on the subject of this paragraph.

4. List No 2 Consists entirely of irrigation works, for the most part very small ones but many of them including masonry works. The Collector says that these have been either sanctioned or estimated for, and are remunerative work

They number 165, and the aggregate cost is Rupees 76,419; giving an average of Rupees 454. The Collector states that these works have been undertaken, by which it is presumed he does not mean commenced and in progress as if this were the case the works should appear in list No. 1. The Board doubt whether the resources of the District in respect of supervision are sufficient to look after these petty numbers of small works, and the Collector is requested to report further on this subject, without delay. The Board note that only two of the works in list

| | Rs. |
|---|---|
| of Poor tank | 2000 |
| Sundry amendg and Channels | 3049 |

No. 2 are such as to require supervision. It is doubtful whether Lovejoy will report whether these are already sanctioned works or not. The first named appears in list 1 also, with an allotment of Rupees 3000. Besides the irrigation works in List 2, estimates amounting to Rupees 30000 are under preparation.

5. List 3 amounting to Rupees 34,412 consists chiefly of road works but Rupees 10,500 are proposed for works of water supply and improvement of village sites in the Subdivision. None of the road works are existing roads and appear

with a mileage allotment.
The Board resume that the
intention is to collect and
stone metal upon them. The
Collects will report and
furnish further information
as to the details of the grant
amounting to Rupees. 18,500.
above referred to. Pending
explanation the work should
not be commenced.
6. The lists will be sub-
mitted to Government.
