GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

14th September 1877, No. 2307.

**Municipal Reports.**

Read the following paper:—

No. 102. *From W. LOGAN, Esq., President of the Municipal Commissions, Malabar District, to the Chief Secretary to Government, dated Calicut, 2nd July* 1877, *No.* 10.

I have the honor to forward, herewith, the Annual Report of the Calicut Municipality for the past official year 1876-77, together with the statements (nine in number) newly prescribed in G.O., dated 25th April 1877, No. 1347. I submit, herewith, also the reports of the Municipal Auditor and of the Medical Officer, with their enclosures.

2. RECEIPTS.—In the year under report taxes were levied from all sources, and the Profession-tax was newly extended to Classes 5 and 6. The total income of the Municipality, inclusive of the opening balance, was, for the year under report, Rupees 35,288-12-9, against an estimate of Rupees 33,719. It will be observed that in the G.O., No. 923, dated 26th May 1876, sanctioning the Budget for 1876-77, the estimated income of the Municipality was shown at Rupees 34,657. The difference of Rupees 938 was explained in my letter, No. 46, dated 2nd February 1877, submitting the Budget of 1877-78.

3. The particulars of the actual receipts, as compared with the estimate of the year under report and the actuals of 1875-76, are given below:—

4. In the Remark columns of Statements I and II, Receipts and Expenditure, and also in the comparative statements, the Vice-President has explained the variations between the estimate and actuals of the year under report under the several items. Hereunder are explained the several variations between the actuals of this and the previous years.

5. OPENING BALANCE.—A decrease of Rupees 3,700-8-2 is observable under this item as compared with the previous year. This decrease was due to the fact that

all available sums in the year 1875-7 ... re spent in the latter part of that year on sanitary measures adopted to prevent ... spread of cholera which broke out in the Municipality during that period.

6. *Rates and Taxes, &c.*—An increase of Rupees 1,174-6-3 under this item was mainly owing to the fact that, in the year under report, Profession-tax was newly extended to Classes 5 and 6.

7. *School Fees.*—The reason for the increase in the collections of school fees was due to the increased attendance of boys, the average number was sixty-one against only thirty-six in the previous year.

8. *Endowments, Contribution, &c.*—There was a receipt of Rupees 2,659-3-8 under the item of "Interest on loan of Civil Dispensary Fund" against Rupees 2,305-12-9 in 1875-76. This accounts for the increase in the receipts under "Endowments, Contributions, &c." The increase in the amount of interest was due to the recovery on suit of arrears of interest.

9. *Miscellaneous.*—In this item is included a sum of Rupees 584-12-0, being Court costs recovered against Rupees 228-9-8 in the previous year. This accounts for the increase under this item.

10. The following is a comparative statement of Demand, Collection, and Balance of Rates and Taxes, Tolls, &c., for the year under report and for the previous year:—
