*Proceedings of the Madras Government, Revenue Department,
12th February 1877.*

Famine Relief.

No. 355-A. Read the following Proceedings of the Board of Revenue, dated 6th February 1877, No. 499 :—

Read the following letter from J. H. MASTER, Esq., Collector of Bellary, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated 31st January 1877, No. 74 :—

I HAVE the honor to report that out of a quantity of grain received from the Grain Agent for the use of the coolies on rail-works round Bellary, 260 bags of rice have been rejected, some as being half paddy, some as being sea-damaged, and some as being broken and half powder already.

2. I enclose letters received on the subject, and beg to suggest that when a Medical officer pronounces any grain to be unfit for human food that we be allowed to destroy it, but that when it is only mixed with paddy or broken so as to be powdered we be permitted to sell it by auction, after a Committee has certified it to be either one or the other.

ENCLOSURE No. 1.

From A. F. COX, Esq., Additional Sub-Collector, to J. H. MASTER, Esq., Collector of Bellary, dated 27th January 1877, No. 277.

I HAVE the honor to forward a letter (to be returned) from the Assistant Famine Officer, Mr. Agar, No. 298, dated 26th instant, and to request that you will instruct me how to dispose of the rejected rice referred to.

ENCLOSURE No. 2.

From Mr. A. P. AGAR, Assistant Famine Officer, to the Acting Head Assistant Collector in charge of the Additional Sub-Collector's Office, Bellary, dated 26th January 1877, No. 298.

I HAVE the honor to report that 260 rejected bags of Government rice are still lying in our rice godown and taking up much room.

I should be glad if you would let me know how to dispose of it, and answer the following questions :—

(1.) How is rice containing a large proportion of paddy to be disposed of?

If separated it will require an increase in establishment, take a great deal of room in our godown, and all the wastage, &c., will fall on Government.

But if sold in the local market a fair price can be obtained.

(2.) How are we to dispose of damaged rice, such as sea-damaged, broken rice (which boils away), dirty rice containing sweepings of godowns put into bags and partially damaged bags?

I think in this case as well it would pay Government to sell to local merchants who can separate the good from the bad rice themselves.

I should be obliged if you would let me know how to proceed as soon as you conveniently can.

SUBMITTED for the orders of Government.

(A true Copy and Extract.)

(Signed) H. E. STOKES,
Acting Secretary.

No. 355-B. ORDER THEREON, 12th February 1877, No. 628-A.

Miscellaneous.

GRAIN declared by competent authority
to be unfit for food should be destroyed.
Rice which is mixed with paddy or broken,

almost to powder or sea-damaged should be sold by auction.

2. The Board will call on Messrs. Arbuthnot & Co. to explain how the damaged
grain was sent to Bellary.

(True Extract.)
