Not to be folded or roughly handled.

No. 13th Office
Madras
9th November 1877.
No. 1759.
Offl. Memo.

The undersigned is directed to request that the last sentence of clause 1 of the draft Rules submitted with the P.O. of 22nd October 1877, no. 4798 may be struck out and the following paragraph substituted for the concluding sentence of clause 1 of the subsidiary instructions -

"When land other than the land to be mortgaged is offered as collateral security for the advance the certificate must bear the stamp required for a mortgage deed under the Stamp Act for the time being in force and the value of the stamp must be paid by the applicant prior to the issue of the certificate. A copy of every certificate issued under the Act must be forwarded to the registering officer under Section 89 of the Indian Registration Act 1877."

2. As regards Registration the provisions of Sections 17 (b) and 89 were over-looked and as regards the levy of stamp duty the fact that the land to be mortgaged is by law declared to be security for the advance seems to remove the certificate from the category of a mortgage as defined by the General Stamp Act, and in cases in which property is pledged as collateral security.

Security. This view is in accordance with
Clause ~~XX~~ of the Rules of 1873.

3. There is a misprint in the
Certificate Act ~~XX~~ of 1876 being
misquoted.
