Irrigation.

Read the following papers :—

No. 72. No. 234 I.

Note by the Chief Engineer for Irrigation.

THE Revenue Statement of the Godavery Delta for the year 1875-76 (fasli 1285) gives the following general results :—

	1874-75.	1875-76.	Increase or Decrease.
	ACRES.	ACRES.	ACRES.
Area irrigated	513,142	519,705	+6,563

Revenue (water-tax)	*15,32,091	15,29,909	—2,182

* Including Rupees 40,000 water-tax Nidathavole and Baharzhalli Estates.

2. The particulars for the several sections of the Delta are given in the sub-joined abstract for Canals and Deltas prepared in this office and the following are the results :—

	513,142	519,705	15,32,091	15,29,909

3. The Eastern Delta exhibits a decrease and the Central and Western Deltas an increase both in area and revenue. The causes of the decrease of irrigation in the Eastern Delta have been thoroughly gone into and the result of improved arrangements is awaited. The area irrigated in the Nidathavole and Baharzhalli Estates during 1874-75 was not separately entered. It is now shown that the water-tax on 49,198 acres is only Rupees 40,000, but no explanation as to the reason for this has been given. It has hitherto been supposed that the area approximated to 10,000 acres, and it is more than probable that some difficulty will hereafter result from the absence of correct information as to area to be supplied when drawing up the scheme for the complete irrigation of the Western Delta. The total area provided for is 296,300 acres, and in 1875-76 284,947 acres were irrigated.
