C. J. Bird Esquire
Collector of Timeworth

Sir,

With reference to your letter
of the 28 instant, I have the honor to ac-
quaint you for the information of the
Board of Revenue that the extent of
land required by Mr. Neal & Self on the
Countalun Hills for the cultivation of
Coffee will be from 100 or 150 chains
in four or three different places or lots.

PROCEEDINGS OF THE BOARD OF REVENUE,

Dated 25 July — 1853.

No. 138.

From. C. J. Bird Esquire
Collector.

To. D. Luncliffe Esquire
Sub Secretary to the Board of Rev.
Fort Saint George.

Sir.

I have the honor to enclose copy
of a letter of this day from Mr. Loeg con-
taining the information required in extract
from Proceedings of the Board of Revenue
of 20th Instant respecting the extent of land
on the Concallam Hills applied for by Messrs
Heale and Coeg. The 100 or 150 Chans mention-
ed in this letter are evidently intended only
as an Experiment and should the experi-
ment give promise of success the same
parties and others will of course seek to
extend the cultivation of Coffee over every
suitable spot on the Hill side.

2. The Board will observe on referring
to the map that the water from the
Hills.

Enclosed in
Letter No. 138.

Hills above Contallam begins at a very short distance from the eastern side to flow into Travancore and therefore if forest really promotes rain it behoves us to guard the little space we have with the utmost jealousy. For this reason it has for several years been the custom to prohibit the cutting of firewood and burning of charcoal in even the jungle which extends a few hundred yards from the foot of the Hills into the plain between the northernmost and the southernmost of the Hill streams which will be seen in the map to unite into one rivulet between Contallam and Tincanary.

3 The glens down which these Hill streams run are wooded to the top and 100 or 150 chains bear an insignificant proportion to the extent of forest. If therefore coffee bushes are believed to cause rain as much or nearly as much as Forest trees, there is every reason to accept Messrs. Keale and Coe's application.

But if not as in case of the experiment, not being profitable we shall only have lost as much forest and in case of its proving successful strong requisitions will be advanced for permission to extend the plantations. I would not recommend compliance

Compliance with the present request.

Collector.

The Board do not consider that the fact of diminution of rain caused by clearing jungle has been sufficiently established to justify them in refusing permission to Messrs. Keale and Coe to attempt to introduce a measure calculated to expand the resources of the country. They therefore resolve to authorize the collector to accede to the application as far as 150 chains in extent.

From C. J. Bird Esq^r
Collector.

L. W. A. Bayley Esq^r
Secretary to the Board of Revenue
Fort Saint George

Sir,
With reference to extract from the
Proceedings of the Board of Revenue of 25th
July 1853 authorizing me to accede to the
application of Messrs Hale and Co^y
for permission to clear jungle and make
Coffee plantation on 150 Chams of land
on the Guntallum Hills, I have the honor
to acquaint you that other persons have
applied to me for permission to extend
Coffee cultivation on the same Hills.
Among others the Son of the late Zamindar
of Chokkimpatty who lately purchased
3 of the Govt. Spice Gardens has asked for
permission to occupy 20 Chams of land
for the above purpose mostly in the
immediate

immediate vicinity of his present garden.
In consequence ^{however} of the existence of an order
of 26 June 1844 passed by my Predecessor
C. B. Thomas Esq^r strictly prohibiting
the clearing of jungle and making
cultivation of any kind on the hills
in question, I have not felt myself
at liberty to accede to those requests.
But as it seems injudicious to refuse
a privilege to one party especially
a native of the country, which has been
accorded to another being European, I
have the honor to request the Board
authority to recall Mr Thomas' prohi-
bition above referred to and to entertain
in future applications for land to extend
coffee cultivation on the Courtallum
hills.

I have &c.

Collector.

The Board of Revenue see no
objection to the Collector's cancelling Mr
Thomas' order of 26 June 1844, prohibiting

the clearance of jungle for cultivation
on the Courtallum hills and with reference
to their Proceedings of 25 July 1853, they
authorize him to comply with further
applications to a reasonable extent for
lands for coffee cultivation.

2. Should it ever appear to the Collector
that a limit ought to be placed on further
clearances, he will bring the subject
to the notice of the Board, who will
then issue such further orders as may
seem proper.
