*Proceedings of the Madras Government, Revenue Department,
15th February 1877.*

No. 446. Read the following Proceedings of the Board of Revenue, dated 7th February 1877 :—

Read the following letter from H. R. FARMER, Esq., Acting Head Assistant Collector, Kurnool, to R. DAVIDSON, Esq., Acting Collector of Kurnool, dated Kurnool, 28th December 1876, No. 77-A.

In reply to your foot-note, No. 193, to Board's Proceedings, Miscellaneous No. 10,865, dated 11th December 1876, on the subject of securing the irrigation of and under the Katwa-Kalwa, I have the honor to inform you that I believe the cultivation returns will show that there has been no decrease in cultivation owing to the breaching of the Seekrail anicut.

2. The supply of water, which was before more than sufficient to mature a crop of rice on all the land, has now to be carefully economised to secure a crop of raggy or other garden-produce on the high-lying land which, in a year, with a normal rain-fall, may, in all probability, be cultivated as before with rice.

3. The water-distributing establishment which I applied for had not been sanctioned, when I wrote the Takid which gave rise to the Board's Proceedings.

4. I notice that we are to have the advantage of the presence of the Director of Revenue Settlement at Cumbum soon, and I shall, I believe, be able to show him that the breaching of the Seekrail anicut will entail but a very small, if any, diminution of revenue under Cumbum tank.

5. From paragraph 8 of the English draft of my Takid, it will be seen how very small the anticipated falling off was. In a favorable season and with the Nirkatty establishment now sanctioned, I believe there would not only be no falling off, but that it would be quite possible to increase the revenue derived from the wet land under the channel.

6. I have intentionally omitted to call for a statement showing particulars of the variations between land-revenue demand of this year and last. The village and taluq subordinates have more than they can do to attend to famine relief operations. I hope, however, to submit a statement to Mr. Puckle which will show exactly the effect upon land-revenue of breaching the Seekrail anicut.
