Famine Relief.

No. 547. Read the following Proceedings of the Board of Revenue, dated 6th February 1877, No. 495:—

Read the following letter from J. H. MASTER, Esq., Collector of Bellary, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated 31st January 1877, No. 66:—

From the G.O., No. 186, dated 20th instant, it appears on a reference made by the Acting Collector of Nellore as to whether the charges for transport of grain from one station to another and the cost of storage and guarding are to be added to the prime cost, the Government ordered that the "full cost to Government on all accounts must be charged for Government grain supplied on payment to labor contractors," and that we are to "fix reasonable average to cover cost of storing and guarding."

2. I have the honor to state that in the first place I am not at present informed the price at which grain supplied by the Government Grain Agent has been purchased. It is impossible therefore to calculate the average cost of the grain so as to enter in the accounts of each relief-work.

3. I therefore request the orders of the Board as to the course to be followed in this matter.

THE Nellore order referred solely to that district and to a special question.

2. The Board believe that no grain supplied by the Government Grain Agent has yet been brought into use in Bellary, and the Collector must know the price what he has bought himself. Cost of carriage should be included in converting grain wages into money for the relief reports.

3. Grain wages are however to cease shortly except under very special circumstances, and the question is not one of practical importance.
