Proceedings of the Board of Revenue

Dated 16 February 1877

No. 662 -

Read the following

No 168

From

J. V. D. Hardinge Esquire

Ag Sub Collector of Ahallore

To

F. R. H. Sharp Esquire

Ag Collector of Ahallore

Sir,

I have the honor to enclose a form showing the Progress of Relief Works in the Sub-division for the fortnight ending the 20 Instant.

2. You are in possession of two weekly reports of the state of the Tanks which show the

the rainfall and prices of grain
&c, so it is needless to recapitulate
these matters here.

3. Rain has fallen 2 days
glad to say during the
fortnight under report and I
gather that the quantity has
varied much in different
localities yet on the whole
though too late to benefit
any but the standing rabi
crop it must have greatly
increased the water supply.
and by causing the grass
in the beds of rivers, wankaloda

to sprout up has to some extent
proved useful to the cattle. The
Talukdar of Limjir reports
that in the village of Gudipad
in his Taluq the rain fell so
abundantly as to fill the tank,
which unfortunately burst.
This occurred at night. The
breach was repaired and the
villagers managed to save
a months supply of water.

Sub Collector's office
Camp Addanki

Proceedings of the Madras Government, Revenue Department,
20th February 1877.

Famine Relief.

Read. 633-A. Read the following Proceedings of the Board of Revenue, dated 16th February 1877, No. 662:—

[illegible] Esq. Acting Sub-Collector to January 1877, No. 168:—

I HAVE the honor to enclose a form showing the progress of relief works in the sub-division for the fortnight ending the 20th instant.

2. You are in possession of the weekly reports of the state of the taluqs, which show the rainfall and prices of grain, &c.; so it is needless to recapitulate these matters here.

3. Rain has fallen, I am glad to say, during the fortnight under report, and I gather that the quantity has varied much in different localities; yet on the whole, though too late to benefit any but the standing raggy crop, it must have greatly increased the water-supply, and, by causing the grass in the beds of rivers, wankahs, &c., to sprout up, has to some extent proved useful to the cattle. The Tahsildar of Kanigiri reports that in the village of Gudipad in his taluq, the rain fell so abundantly as to fill the tank, which unfortunately burst. This occurred at night. The breach was repaired, and the villagers managed to save a month's supply of water.
