GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

20th July 1878, No. 1,122.

Read the following paper :—

No. 241. From Lieutenant-Colonel R. H. BEDDOME, Conservator of Forests, to C. G. MASTER, Esq., Secretary to Government, Revenue Department, dated Ootacamund, 11th July 1878, No. 655.

ALLUDING to G.O., No. 919, of the 18th June last, I have the honor to inform you that I am sending to the Royal Botanical Society, Regent's Park, a Wardian case containing growing plants of the Clove, the Nutmeg, the Mangosteen, and the Teak. With the exception of the latter, these are all introduced plants to the Continent of India.

2. The true Gutta-percha (*Dichopsis gutta*) is not procurable in this Presidency, and I do not know that it has ever been introduced; it grows in the Malay Archipelago. A false species of Gutta-percha (*Dichopsis elliptica*) grows on the Tinnevely and Travancore mountains, and I will endeavour to forward seed of this shortly.

3. The West Indian Lignum-vitæ is not procurable in this Presidency.

4. I have just forwarded the following seeds, which, I think, may be of value, to the same Society :—

Dendrocalamus strictus (our male bamboo).
Musa, sp., a fine ornamental plant from the Tinnevely mountains.
Bentinckia Condapana, a fine palm from the Travancore mountains.
Oncospermum fasciculatum, } Ornamental palms.
Ptycospermum rupicola, }
Musa, sp., a fine plant from west slopes of Nilgiris.
— ? , an ornamental creeper from the Travancore hills.

Seeds of rattans shall follow when collected.

5. I enclose a list of plants which would be very great acquisitions in the Government Gardens here, and perhaps all or most of them could be sent in exchange by the Royal Botanical Society.

ENCLOSURE No. 1.

LIST of Plants desirable for the Ootacamund Government Gardens.

Adiantum Seemani.
" *Capellus veneris magnificum*.
Woodwardia Japonia.
