Read the following letter from A. CRUICKSHANK, Esq., Acting Collector of South Arcot, to C. A. GALTON, Esq., Acting Secretary to the Board of Revenue, dated Cuddalore, 4th July 1878, No. 289 :—

I HAVE the honor to forward specimens of some insects received this forenoon from the Head Assistant Collector which he says are undoubtedly locusts. They were found in the Virdachellum Taluq and were proceeding northward. A peon says he saw a swarm about three-quarters of a mile long, half a mile broad, and of considerable thickness in the village of Aladi near Irsalakuppam in the Virdachellum Taluq. Instructions were issued by the Head Assistant Collector to the Tahsildars and the Deputy Tahsildars telling them what they should do to try to destroy the swarms. The Head Assistant Collector says nothing as to whether they had done any damage to any crops, and he has been requested to report on this point.
