Irrigation.

Read the following paper :—

No. 92. Endorsement of the Chief Engineer for Irrigation, dated Oofacamund, 25th April 1878, No. 99.

From 'H. UNWIN, Esq., District Engineer, Cuddapah, to the Chief Engineer for Irrigation, dated Cuddapah, 12th April 1878, No. 99.

Your No. 83 C D of 29th September 1877.

In reply to the above I have the honor to forward an extract of a letter from the Supervisor in charge of Gorantlapally Kadrappah Noyanee Chervoo, from which it will be seen that when the tank is restored some 250 acres will be brought under cultivation.

2. A statement showing the ayacut for last twenty years is also submitted, in which the note by the Village Curnum explains the remarkable difference between the ayacut, assessment, and average revenue as noticed in G.O., 5th January 1877, No. 32, sanctioning the estimate for improving the tank.

3. I have to regret that this information was not furnished to you when the estimate was first submitted.

SUBMITTED for the information of Government, with reference to paragraph 3 of G.O., No. 32, of the 5th January 1877.

2. The explanation afforded while accounting for the very small revenue derived recently from the Kadrappah Noyanee tank shows that the Range Officers for many years had omitted to make themselves acquainted with its requirements, and that for some sixty years the tank had not been properly attended to.
