GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

27th July 1878, No. 1,183.

Read the following paper :—

No. 365. Proceedings of the Board of Revenue, dated 8th July 1878
Miscellaneous No. 6,759.

Read the following letter from J. F. PRICE, Esq., Acting Collector of the
Chingleput District, to C. A. GALTON, Esq., Acting Secretary to the
Board of Revenue, dated Saidapet, 2nd July 1878, No. 9 :—

AS DIRECTED in the Board's Proceedings, dated 10th May last, No. 1,263, I have
the honor to forward a draft declaration for taking up under Act X of 1870 the
land proposed to be added to the Saidapet Experimental Government Farm.

ENCLOSURE No. 1.

Acquisition of Land.

UNDER the provisions of Act X of 1870, the Governor of Fort St. George in Council is
pleased hereby to declare that the land hereunder particularized, situated in the Zemindari
Village of Adyar, Saidapet Taluq, Chingleput District, containing by a recent admeasurement
Acres 3.75, be the same more or less, is needed for a public purpose.

The particulars of the land, &c., required may be ascertained by application to the Acting
Collector of the Chingleput District :—

Names of Owners or Occupiers.	Boundaries.	Descrip- tion of Land.	Pymash Number of Field.	Area.
Venkatachella Pillay	Bounded on the north by Saidapet Government Farm; south by the Adyar River; east by a channel; and west by a cart track.	Wet ...	283	ACRES. 1.18

PROCEEDINGS OF THE BOARD OF REVENUE, dated 10th May 1878.

Read the following letter from W. R. ROBERTSON, Esq., M.R.A.C., Superintendent of Government Farms, to C. A. GALTON, Esq., Acting Secretary to the Board of Revenue, dated Sydapet, 27th April 1878, No. 373:—

I HAVE the honor to submit copies of correspondence and a plan relative to a proposal which has long been entertained to add to the Sydapet Experimental Farm a piece of rough land in the river bed situated on the outer side of its present southern boundary fence. The land is of no agricultural value; it consists of hillocks of drift sand and hollows that are usually filled with stagnant water during the rainy season. A portion of this land is covered with a scrub jungle of Corkapilly bushes with a few Guavo bushes. In its present state the land is a great nuisance, as the portion covered by bushes is used as a latrine by the numerous dhobies who are daily employed in washing clothes in the river.

2. The occupier says that Mr. Fane, when Collector of the district, authorized him to plant trees on this land; that he has no putta; and that he never paid any rent to any one. Two years ago the occupier offered to give up the land to the farm on condition of being allowed to cut down the jungle for his own use, and he signed a relinquishment to this effect; but a few days afterwards he withdrew from the arrangement on the pretence that the so-called Zemindar of Adyar had interfered to prevent the bushes being cut; which statement, he admitted to us, a few days ago, was quite untrue, neither the Zemindar nor any agent of his having interfered in any way in the matter. He is still willing to give over possession to us, but now demands 150 Rupees compensation—the Corkapilly and Guavo bushes to become the property of the farm; these bushes are probably worth as fuel from 30 to 40 Rupees.

3. The centre of the river bed forms the boundary of the estate throughout its whole distance from the Marmalong Bridge to the Cutcherry compound excepting, it is said, where it passes this plot. It is highly improbable that this is so, for the land until recently formed but a part of the river bed. I suspect that the fence was placed on the north side of the plot in question merely because the cultivable land then ended there, and the best place to raise such an efficient fence as was required to protect the farm from trespass by the numerous persons who frequented the river bed for the purpose of washing clothes.

4. When I first saw this land it had only a few straggling Corkapilly bushes on it; but these by collecting around them sand, &c., during floods, have tended to raise its surface which has enabled the occupier recently to plant a number of Guavo trees with some better prospect of getting a return than a few years ago would have been the case. However, the surface of the whole of the land is still below the ordinary flood level.

5. As regards the inquiry that the Survey Department appear to have held, all I can say is that I never heard anything about it until Mr. Barlow mentioned the fact that such an inquiry had been held.

6. It is very desirable that the land should either be cleared of jungle and restored to its original state so that its insanitary state can be remedied, or that it be added to the farm. If the Board approve of either alternative I shall feel much obliged if I may be favored with early instruction how to proceed to carry out either.

ENCLOSURE No. 1.—Copy of Correspondence.

ENCLOSURE No. 2.—Map.

THE Collector will submit a draft declaration in view to the land being taken up under Act X of 1870.
