GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

3rd October 1878, No. 1,601.

Read the following paper :—

No. 18. From A. O. HUME, Esq., C.B., Secretary to the Government of India, Department of Revenue, Agriculture and Commerce, (General), to the Secretary to the Government of Madras, dated Simla, 21st August 1878, No. 6.

THE Government of India are desirous of affording some encouragement to the *Indian Agriculturist*, published at Calcutta by Mr. R. Knight, and enhancing its value as an organ for the diffusion of useful information in regard to agriculture, planting, forestry, and kindred subjects, and I am directed to request that, with the permission of His Grace the Governor in Council, you will be good enough to inform the Government of India what course in the opinion of His Grace in Council it would be advisable to adopt to effect the object in view.

2. I am to remark that in the opinion of the Governor-General in Council very substantial assistance might be rendered to the journal by the publication in it, instead of as at present in the Local Government Gazettes, of scientific, agricultural, and similar reports, and by the communication to it by district and other officers of items of information that come to their knowledge on matters connected with agriculture, cattle-breeding, the production of silk, &c. I am to inquire whether His Grace in Council sees any objection to this being done.

SIR,—In reply to your letter of the 21st August last, No. 6, (General), I am directed to state that arrangements will be made for the transmission to Calcutta for publication in the *Indian Agriculturist* of reports on the subjects mentioned and on any other matters of interest considered suitable, but this can in no sense, His Grace in Council thinks, be in substitution of publication in local Gazettes.

2. Nor do the Government of Madras think it desirable that their District Officers should have the duty imposed on them of communicating direct with the journal in question.
