GOVERNMENT OF MADRAS.
REVENUE DEPARTMENT.

3rd October 1878, No. 1,602.

Read the following paper:—

No. 20. Proceedings of the Board of Revenue, dated 7th August 1878, No. 2,181.

THE Board proceed to review the detailed Budgets of expenditure proposed from the Jungle Conservancy Fund in the several districts during 1878-79.

2. KISTNA.—The cost of the Inspecting Establishment is given as Rupees 1,608 against Rupees 2,166 in last year, showing a decrease of Rupees 558 as shown below:—

	Budget of 1877-78. RS.		Budget of 1878-79. RS.	Decrease. RS.
2 Overseers including travelling allowance at Rupees 65 each ...	1,560	2 Overseers including travelling allowance at Rupees 60 each ...	1,440	120
4 Peons at Rupees 6 each ...	288	2 Peons at Rs. 6 each ...	144	144
2 Maistries at Rupees 12 each...	288	" " " " ...	24	288
Contingencies ...	30	Contingencies ...	...	6
Total ...	2,166	Total ...	1,608	558

No reason is assigned for the reduction. The Collector will explain.

3. NELLORE.—Item No. 27 is for the plantation of 25,000 Casuarina trees at Dugarazpatam, the estimate for which amounted to Rupees 6,041-12-0, which amount is shown as the allotment for the current year. In the column of remarks the amount actually spent out of the estimate up to the close of September 1877 is given as Rupees 5,344-4-0, and it was proposed to spend Rupees 115 before the close of 1877-78, thus making a total of Rupees 5,459. Deducting this sum from the amount of the estimate there remains only Rupees 1,183. There are three servants attached to the plantation—one maistry at Rupees 7 for twelve months and two gardeners at Rupees 4 each per month for three-and-a-half months; the cost amounts to only Rupees 112. The Collector will state what the actual allotment should be.

4. For Item No. 37, 2nd Plantation of Casuarina trees at Kottapatnam, an allotment of Rupees 792 is proposed to meet the salary of three gardeners at Rupees 4 each per mensem for five-and-a-half months and contingent charges. According to this the salary of the gardeners amounts to Rupees 66, leaving Rupees 726 for contingent charges. The nature of the latter charge should be explained.

5. For Item No. 38, 3rd Plantation of Casuarina trees at Kottapatnam, a provision of Rupees 312 is made to meet the wages of forty gardeners at 4 Rupees each per mensem for five months and contingent charges. The salaries of the gardeners alone amount to Rupees 800. The Collector will explain the discrepancy.

6. There is a provision of Rupees 828 for Item No. 46, Casuarina Plantations at Utukuru, to meet the salaries of one maistry at Rupees 7 for twelve months, of forty gardeners at Rupees 4 per mensem for five months and contingent charges. The cost of the establishment alone comes to Rupees 884, which is Rupees 56 in excess of the allotment. The Collector will explain the discrepancy.

the cost of Public Works Department Supervision. The Board have already, in paragraph 12 of their Proceedings, 9th February 1878, No. 348, transferred to the Revenue Department the allotments provided in favor of the Public Works Department in the Kistna and Trichinopoly Districts.

20. With these remarks the talukwar abstract of expenditure will be printed and circulated to all officers concerned.

No. 21.

ORDER THEREON, 3rd October 1878, No. 1,602.

Forests, No. 1.

THE detailed Jungle Conservancy Budget for 1878-79 being submitted by the Board of Revenue in the old form and upwards of five months after the commencement of the year to which it relates, its review by Government is a task of difficulty and of small advantage. This state of things will in future be remedied when the new forms, the preparation of which was directed in the order noted in the margin, are adopted and the Budget submitted by the date therein prescribed. The Board have, it is presumed, issued the necessary instructions to all Collectors.

2. Receipts.—The total estimated revenue in each district is given, but as to the sources from which it is derived no information is afforded. The result is that the fund opens with an actual balance on the 1st April of Rs. 55,710, and that its probable receipts are given as Rs. 2,36,130 against an estimated expenditure of Rs. 2,08,200. The balance anticipated at the close of the year is thus Rs. 83,640.

3. The largest opening balances occur in the districts noted in the margin, but in three* of these a partial reduction is provided for by an expenditure in excess of receipts. In the case of the remaining districts the case is far otherwise, for the expected revenue is larger than the estimated charges *e.g.* :—

Godavari.	Tanjore.
Cuddapah.	Madura.
North Arcot.	Tinnevely.
* North Arcot.	
Tanjore.	
Madura.	

	Actual Balance.	Estimated Receipts during the Year.	Estimated Expenditure.
	Rs.	Rs.	Rs.
Godavari ..	20,780	5,810	1,000
Cuddapah ..	5,550	15,690	4,070
Tinnevely ..	9,960	8,130	7,520

4. Owing to the defective form in which the present and former Budgets have been submitted, the Government are unable to compare these results with those of past years, but the figures appear to show that in the Godavari there has been a persistent neglect to utilize for the benefit of the people the money levied from them for that purpose. In Cuddapah the omission to provide for the expenditure of the year's receipts may probably have arisen from the doubtful state of the season at the time the Budget was prepared, but this should be rectified in the Budget for 1879-80. In Tinnevely the Collector is said to be preparing a scheme for an enlarged outlay, but from other* papers that have come before Government it would appear that he will have to turn his attention in a fresh direction. The end which Government would wish to be mainly kept in view in the disposal of the receipts of this fund will be noted further on.

5. Four districts commenced the year with a deficit, but it is expected that this will be made good from current revenue in all except Kurnool, regarding which the Board have called for a report.

6. Expenditure.—In considering the estimated expenditure, especially with reference to those districts which commenced the year with a considerable balance, the Government note that the main object of the fund, viz., "the conservancy and extension of village jungles," is apparently in danger of being lost sight of.

In seven of the eighteen districts in which this fund is in operation, there is no outlay at all on such jungles, and only in six of the other eleven is the expenditure in due proportion to the amount expended on village topes or plantations on channel banks. In North Arcot only Rs. 508 are allotted to Fuel Reserves, while no less a sum than Rs. 15,683 is to be spent on the work of extending, and maintaining village topes. In Coimbatore nothing, and in Salem only Rs. 60 are to be spent on village jungles, while the estimated expenditure on village topes is respectively Rs. 14,362 and Rs. 10,320.

7. In these remarks it is assumed that the topes are not of a nature to meet the requirements of the people for fuel or timber, and this view is supported by the insignificance of their extent.

8. A comparison with the Budget estimate † of the past year would seem to show that the number of topes has fallen from 988 to 882, and their area from acres 15,723 to acres 8,543, or nearly one-half. This loss seems to have occurred in the following districts:—

				Decrease.
Kistna	...	17, now	none	17
Nellore	...	165, "	161	4
Cuddapah	...	55, "	39	16
Belary	...	52, "	33	19
Tanjore	...	19, "	17	2
Trichinopoly	...	14, "	12	2
Madura	...	27, "	25	2
Coimbatore	...	84	64	20
Total				82

9. The decrease being partially made up by increases ‡ in other districts and by extensions, the Government are unable to trace the full extent of the abandoned topes, but the result, as it stands, calls for explanation, and the Board in their annual report will notice this subject fully as well as the character of the topes in each district and the expenditure on topes at salt stations beyond the limits of the villages contributing the funds.

10. With these remarks the Budget is passed; but the Government desire to impress on all Collectors the great importance of ensuring to the people adequate returns for the contributions made by them.

No. 2,181.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 7th August 1878.

THE Board proceed to review the detailed Budgets of expenditure proposed from the Jungle Conservancy Fund in the several districts during 1878-79.

2. KISTNA.—The cost of the Inspecting Establishment is given as Rupees 1,608 against Rupees 2,166 in last year, showing a decrease of Rupees 558 as shown below:—

	Budget of 1877-78. RS.	Budget of 1878-79. RS.	Decrease. RS.
2 Overseers including travelling allowance at Rupees 65 each ...	1,560	2 Overseers including travelling allowance at Rupees 60 each ...	1,440
4 Peons at Rupees 6 each ...	288	2 Peons at Rs. 6 each ...	144
2 Maistries at Rupees 12 each ...	288	" " " " " " " " " " " "	288
Contingencies ...	30	Contingencies ...	24
Total ...	2,166	Total ...	1,608
			558

No reason is assigned for the reduction. The Collector will explain.

3. NELLORE.—Item No. 27 is for the plantation of 25,000 Casuarina trees at Dugarazpatam, the estimate for which amounted to Rupees 6,641-12-0, which amount is shown as the allotment for the current year. In the column of remarks the amount actually spent out of the estimate up to the close of September 1877 is given as Rupees 5,344-4-0, and it was proposed to spend Rupees 115 before the close of 1877-78, thus making a total of Rupees 5,459. Deducting this sum from the amount of the estimate there remains only Rupees 1,183. There are three servants attached to the plantation—one maistry at Rupees 7 for twelve months and two gardeners at Rupees 4 each per month for three-and-a-half months; the cost amounts to only Rupees 112. The Collector will state what the actual allotment should be.

4. For Item No. 37, 2nd Plantation of Casuarina trees at Kottapatnam, an allotment of Rupees 792 is proposed to meet the salary of three gardeners at Rupees 4 each per mensem for five-and-a-half months and contingent charges. According to this the salary of the gardeners amounts to Rupees 66, leaving Rupees 726 for contingent charges. The nature of the latter charge should be explained.

5. For Item No. 38, 3rd Plantation of Casuarina trees at Kottapatnam, a provision of Rupees 312 is made to meet the wages of forty gardeners at 4 Rupees each per mensem for five months and contingent charges. The salaries of the gardeners alone amount to Rupees 800. The Collector will explain the discrepancy.

6. There is a provision of Rupees 828 for Item No. 46, Casuarina Plantations at Utukuru, to meet the salaries of one maistry at Rupees 7 for twelve months, of forty gardeners at Rupees 4 per mensem for five months and contingent charges. The cost of the establishment alone comes to Rupees 884, which is Rupees 56 in excess of the allotment. The Collector will explain the discrepancy.

7. A lump allotment of Rupees 6,295 is proposed for Items Nos. 57, 58 and 59, Topes Nos. 1, 2 and 3 in charge of the Sea Customs Department at Kottapatnam. The cost of the establishment proposed for them amounts to only Rupees 3,502 as hereunder particularized:—

2 Maistries at Rupees 7-8-0 each per month, for 12 months ...	180
73 Gardeners at " 5-8-0 " " " " " " " " " " " "	3,212
10 "	110
Total ...	3,502

No information is given as to how the difference between this sum and the allotment of Rupees 6,295 is to be utilized. The Collector will explain.

8. For Item No. 114, Palmyra Plantations at Chinnam Annalur, an allotment of Rupees 3 is proposed instead of Rupees 30 as in last year. The former entry appears to be a clerical error.

9. There are several other items shown in the Budget without the necessary details for the allotments proposed, and as it would be tedious to notice them separately, the Board request the Collector to see that future Budgets are more carefully prepared.

10. CHINGLEPUT.—The allotment for Item No. 24 (Tops at Pulidivauk) is given as Rupees 113 instead of Rupees 134 as per particulars of the establishment proposed and given below :—

			RS.	A.	P.
1 Gardener at Rupees 5-0-0 per month, for 12 months	...	...	60	0	0
7 Boys at " 3-8-0 " " 3 " "	...	...	73	8	0
			133	8	0

or Rupees 134 in round numbers.

The correct figure has now been inserted.

11. TRICHINOPOLY.—The estimated expenditure is Rupees 9,580, while the available assets are only Rupees 7,300 as shown in the statement of receipts and charges appended to paragraph 17 of these Proceedings. The excess expenditure of Rupees 2,280 is disallowed accordingly.

12. MADURA.—The description and number of trees to be planted in the tops, which it is proposed to form, and for which establishments are provided under Items Nos. 24, 26, 31 and 32, are not given. This omission should be supplied.

13. COIMBATORE.—The description and number of trees are not given under Items Nos. 33 and 34. The omission should be supplied.

14. Two servants are provided under Item No. 64 to look after a top containing only forty-one trees. The Board think that one servant ought to be sufficient.

15. SALEM.—The Collector is requested to furnish information as to the number and description of trees under the items noted below :—

- No. 53 in Salem Taluk.
- " 11 in Namkul Taluk.
- " 14 and 15 in Trichengode Taluk.
- " 31 to 36 in Darampoory do.

16. The subjoined statement shows the estimated receipts and charges of the Fund as revised by the Board. Now that all the Special Local Fund accounts for March 1878 have been received from the districts, the Board have thought it proper to adopt the actual balances of the Jungle Conservancy Fund on the 1st April 1878 instead of the estimated balances shown in the abstract* Budget :—

Total	55,710	2,96,100	3,51,810	2,06,220	1,980	2,08,200	1,43,610

17. The total proposed expenditure amounts to Rupees 2,08,200 against Rupees 2,10,550 shown in the abstract Budget. There is thus a difference of Rupees 2,350 as explained below :—

Districts.	Original Expenditure.	Revised Expenditure.	Difference.	Remarks.
	RS.	RS.	RS.	
1. Chingleput	8,670	8,690	20	This difference is due to the cause explained in paragraph 10 of these Proceedings.
2. Trichinopoly	9,580	7,300	2,280	This difference is noticed in paragraph 11 <i>supra</i> .
3. Coimbatore	14,940	14,850	90	This difference is due to a smaller expenditure having been provided for in the detailed Budget than that entered in the original abstract Budget estimate.

18. The subject of the utilization of the unappropriated balance of the Fund in the Godavery, Nellore, Cuddapah and Tinnevely Districts is noticed in the Board's Proceedings embodied in the Government Order referred to above. The balance in Nellore has however been considerably reduced by a large deficit at the beginning of the year. In Salem, the balance in the statement is Rupees 8,440 against Rupees 4,200 shown in the abstract Budget owing to the excess of the actual over the estimated balance. This amount will however be gradually reduced as it is estimated that the charges in the district will, for some years, continue to exceed the receipt of the report called for in Board's Proceedings, dated 4th April 1878, Miscellaneous No. 3,534.

19. In accordance with the recent orders of Government, all Jungle Conservancy works should be carried out by the Revenue Establishment, without the aid of the Public Works Department so as to avoid the cost of Public Works Department Supervision. The Board have already, in paragraph 12 of their Proceedings, 9th February 1878, No. 348, transferred to the Revenue Department the allotments provided in favor of the Public Works Department in the Kistna and Trichinopoly Districts.

20. With these remarks the talukwar abstract of expenditure will be printed and circulated to all officers concerned.

probable receipts are given
as Rs 2,36,130 against an
estimated expenditure
of Rs 2,08,200. The balance
anticipated at the close
of the year is thus Rs
83,640.

3. The largest opening
balances occur in the
Districts noted in the mar-
gin, but in three of these
a partial reduction is
provided for by an expan-
diture in excess of receipts.
In the case of the remaining
Districts the case is far
otherwise for the expected
Revenue is ^{larger than} ~~less than~~ of the
estimated charges.

Cuddapah - 5550 - 15690 - 4070

Siminelly - 9960 - 8130 - 7520

4. Owing to the defective form in which the present and former budgets have been submitted the Govt are unable to compare these results with those of past years, but the figures appear to show that in the Godavari there has been a persistent neglect to utilize for the benefit of the people the money levied from them for that purpose.

In Cuddapah the omission to provide for the expenditure of the year's receipts may probably have arisen from the doubtful state of the season at the time the budget was

was prepared but this should be rectified in the budget for 1879/80 - ^{1602/15}
 In Siminelly the collector is said to be preparing a scheme for ^{an} enlarged outlay but from other papers that have come before Govt it would appear that he will have to turn his attention in a fresh direction. The end which Govt would wish to be mainly kept in view in the disposal of the receipts of this fund will be noted further on.

5. Four districts commenced the year with a deficit but it is expected that this will be made good from

from current revenue
in all except Kurnool
regarding which the Board
have called for a report

Expenditure.

6. In considering the
estimated expenditure,
especially with reference
to those Districts which
commenced the year with
a considerable balance,
the Govt note that the
main object of the Fund
viz "the Conservancy and
extension of village jungles"
is apparently in danger
of being lost sight of.
In seven of the eighteen
Districts in which this
Fund is in operation
there is no outlay at all
on such jungles and only
in six of the other eleven

is the expenditure in due
proportion to the amount
expended on village topes
or plantations on channel
banks. In North Arcot
only Rs 508 are allotted
to Fuel Reserves while
no less a sum than
Rs 15,883 is to be spent
on the far less important
work of extending and
maintaining village topes.
In Coimbatore nothing,
and in Salem only Rs 60
are to be spent on village
jungles while the estimated
expenditure on village
topes is respectively Rs
14,362 and Rs 10,320.

7. In these remarks
it is ^{assumed} supposed that the
topes are not of a nature
to

to meet the requirements of the people for fuel or timber and this view is supported by their insignificance of their extent.

8. A comparison with the budget estimate of the past year shows that the number of topes has fallen from 938 to 882 and their area from acres 15,723 to acres 8,543 or nearly one half. This loss seems to have occurred in the following Districts

Kistna	17	now none	17
Nellore	165	now 161	4
Guddahah	55	now 39	16
Bellary	52	now 33	19

made up by increases in other Districts ^{by extensions} the Govt is unable to trace the full extent of the abandoned topes but the result as it stands ^{takes for its place} is sufficiently alarming and the Board in their annual report will notice this subject fully as well as the character of the topes in each District ^{with the expenditure on topes at all stations beyond the limits}

10. With these remarks the Budget is passed. but the Govt. desire to impress on the Govt. the great importance of ensuring the people adequate returns for the contributions made by them.
