2. The area cultivated up to September is 264,616 acres, and shows an increase of 37,046 acres, as compared with the average cultivation in the same period of the three years ending 1875-76. The increase appears in all taluks except Gudur, where the decrease is ascribed to deficient rainfall.

3. The collections for the same period amount to Rs. 19,56,472 against an average of Rs. 10,95,364, the increase being apparently due to the collection of arrears.

4. It is observed that the average cultivation in the month in the taluk of Gudur is given as 10,448 acres, whereas according to the details it is 10,488 acres. The Collector is requested to explain the discrepancy.
