REVENUE DEPARTMENT.

7th October 1878, No. 1,035.

Read the following papers:—

No. 193—195. Proceedings of the Board of Revenue, dated 27th September 1878, No. 2,698.

Read the following letter from W. C. HAYNE, Esq., Deputy Conservator of Forests, Tinnevely, to J. B. PENNINGTON, Esq., Collector of Tinnevely, dated Vasudavamallur, 7th September 1878, No. 200:—

A short time ago I brought to your notice a Tamil advertisement of Mr. Ritchie's in the District Gazette of the 12th June 1878, page 188, inviting merchants to come and remove timbers from his property on the Kattai malais; this I informed you I considered the precursor to the felling of the property at the close of the year.

2. I have the honor now to inform you that I come to learn through my ranger who has ascertained from Mr. Gomez, Mr. Ritchie's Conductor, that he purposes felling some 250 acres in November next.

No. 677.

Submitted for the information of the Board with reference to their Proceedings, No. 1,239, dated 9th May 1878.

2. We shall have an opportunity now of observing the effect of felling heavy single year. I doubt myself if the coffee shrubs that may be planted will do much to retard the rush of water.

COURTALLAM,

PROCEEDINGS OF THE BOARD OF REVENUE, dated 27th September 1878.

Read the following letter from W. C. HAYNE, Esq., Deputy Conservator of Forests, Tinnevely, to J. B. PENNINGTON, Esq., Collector of Tinnevely, dated Vasudavanallur, 7th September 1878, No. 200:—

2. I have the honor now to inform you that I come to learn through my ranger who has ascertained from Mr. Gomez, Mr. Ritchie's Conductor, that he proposes felling some 250 acres in November next.

No. 677.

SUBMITTED for the information of the Board with reference to their Proceedings, No. 1,239, dated 9th May 1878.

2. We shall have an opportunity now of observing the effect of felling heavy timber on an extremely steep hill side. If the result is to increase the violence of the floods much beyond those of last December it will be found to be cheaper to take up the whole tract of private forests under the Act than to repair the damage of a single year. I doubt myself if the coffee shrubs that may be planted will do much to retard the rush of water.

REVENUE DEPARTMENT.

MINISTER AT THE HONORABLE SIR W. ROBINSON, K.C.S.I.

I think that the Board might be instructed that the Government are not prepared to buy up tracts of private forest on the conjectural grounds suggested by the Collector. Well cultivated ground is probably acre for acre a more certain absorber of moisture than even for woodland in its natural condition.

REVENUE DEPARTMENT.

Handwritten: ~~Answer~~ by Mr. HAWARD W. HUDLESTON, C.S.I.

1. I do not share Sir W. Robinson's view on that open ground checks flood there than woodland, which I believe to be correct on all experience. But I see no need for any remark on the question of purchase in the case of the Kitley Millai Forest.

2. The Revenue Board have made no suggestion of this kind. On the contrary, in their Proceedings of 20th May last, they argue against the idea, and the Collector merely incidentally remarks that if the clearance should aggravate mischief, such as occurred in December last to the irrigation works from flood, it would be cheaper to take up the private woodland under the Act than to incur the cost of repairs.

3. I would "record" the letter.
