PROCEEDINGS OF THE BOARD OF REVENUE, dated 16th September 1878.

The following letter from A. CRUICKSHANK, Esq., Acting Collector of South Arcot, to C. A. GALTON, Esq., Acting Secretary to the Board of Revenue, dated Sankarapuram, 7th September 1878, No. 370:—

With reference to the Order of Government, Revenue Department, dated the 10th May 1878, No. 797, communicated in the Board's Proceedings, Miscellaneous No. 60, of the 7th June last, I have the honor to inform the Board that I addressed the Government on the subject of the above order and requested His Excellency to be good enough to appoint a European officer of standing to meet Liardet and look after the interests of his Government. He replied that such European officers of the Revenue and the Public Works Departments as he had appointed were busily occupied with the proposed Railway work and could not be taken from this work for some months, but he had ordered his Tahsildars of Villenour to give Major Liardet every assistance when required to do so. I pointed out that the end in view could not be accomplished by this arrangement unless Liardet's demarcation might be sent him after the work was done when his Government could say whether they approved or disapproved of them. I again pointed out that this would not at all meet what we wished to have done as, if the demarcation were disapproved of, the work might have to be gone over again in company with his officers. I regret very much that the request should have had to be made at such an apparently inopportune time and see no other way of getting the matter satisfactorily disposed of except by waiting till the French Government are in a position to appoint an officer to meet Major Liardet. I therefore request that the Government may be obtained as to whether this is to be done or what other course should be followed.

Submitted for the orders of Government.

The Board recommend that operations be deferred until the French Government are in a position to depute a responsible officer to meet Major Liardet.
