notice the appearance of rinderpest among the cattle on one of his coffee estates. It will be observed that Dr. Thacker's instructions were followed in this case but without success.

ENCLOSURE No. 1.

From F. W. DITMAS, Esq., to W. UNDERWOOD, Esq., Deputy Collector of Wynaad, dated Kundamullah, 4th December 1877.

I HAVE the honor to report that rinderpest broke out in my Wynaad Estate herd on 28th November, and that in spite of every precaution, such as segregation of the cattle and careful physicing with Dr. Thacker's mixture, thirteen cattle out of a herd of seventy-eight have died up to date.

2. The medicine seems to have some effect when first given, but I am sorry to say does not seem to be of any permanent benefit.

3. I have the honor to request that you will be good enough to let me have a tin or two of Dr. Thacker's cattle medicine if you have any on hand.

SUBMITTED for the information of Government.
