Read the following paper:—

No. 70. *From Lieutenant-Colonel R. H. BEDDOME, Conservator of Forests, to the Secretary to Government, Revenue Department, dated Ootacamund, 17th May* 1877, *No.* 159.

Adverting to G. O., dated the 14th August 1876, No. 1469, Financial Department, communicated in G. O., dated the 22nd idem, No. 1974, Revenue Department, I have the honor to state that it is impossible in all cases to substitute articles of Indian manufacture for those obtained from England. For the double double pott printing paper I can substitute country foolscap paper for printing the tickets required for the collection of seigniorage on timber, firewood, bamboos, charcoal, &c., and for licenses country Goa paper can be substituted; but, considering how cheap paper is in England, I am not sure that this would really be a saving.

2. The black ink powder can be reduced in quantity as good ink can be made from forest produce in almost all districts, and the indigenous gums might take the place of that supplied from England.

3. I can also limit the quantity of superior black lead pencils and supply bazaar pencils, which can be purchased at three or four annas per dozen for the use of the Forest Rangers, Foresters, &c.

4. A copy of my last indent for stationery articles is herewith submitted.

Transferred to the Financial Department with reference to Government Order in that Department, 14th August 1876, No. 1469.
